

FORM 6-K

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Report of Foreign Private Issuer Pursuant to Rule 13a-16 or 15d-16 of the Securities Exchange Act of 1934

For the month of May 2015

Commission File Number: 001-31819

Gold Reserve Inc.

(Exact name of registrant as specified in its charter)

926 W. Sprague Avenue, Suite 200
Spokane, Washington 99201
(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):

The following exhibits are furnished with this Form 6-K:

99.1 March 31, 2015 Interim Consolidated Financial Statements

99.2 March 31, 2015 Management's Discussion and Analysis

99.3 Chief Executive Officer's Certification of Interim Filings

99.4 Chief Financial Officer's Certification of Interim Filings

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS AND INFORMATION

The information presented or incorporated by reference herein contains both historical information and "forward-looking statements" within the meaning of the relevant sections of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and "forward-looking information" within the meaning of applicable Canadian securities laws, that state Gold Reserve Inc.'s (the "Company") intentions, hopes, beliefs, expectations or predictions for the future. Forward-looking statements and forward-looking information are collectively referred to herein as "forward-looking statements".

Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies that may cause the Company's actual financial results, performance, or achievements to be materially different from those expressed or implied herein and many of which are outside its control. Some of the material factors or assumptions used to develop forward-looking statements include, without limitation, the uncertainties associated with: the timing of the enforcement and collection of the amounts awarded (including pre and post award interest and legal costs) (the "Arbitral Award") by the International Centre for Settlement of Investment Disputes (the "ICSID") for the losses caused by Venezuela violating the terms of the treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT") related to the Brisas Project (the "Brisas Arbitration"), actions and/or responses by the Venezuelan government to the Company's collection efforts related to the Brisas Arbitration, economic and industry conditions influencing the sale of the Brisas Project related equipment, and conditions or events impacting the Company's ability to fund its operations and/or service its debt.

Forward-looking statements involve risks and uncertainties, as well as assumptions, including those set out herein, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements. The words "believe," "anticipate," "expect," "intend," "estimate," "plan," "may," "could" and other similar expressions that are predictions of or indicate future events and future trends which do not relate to historical matters, identify forward-looking statements. Any such forward-looking statements are not intended to provide any assurances as to future results.

Numerous factors could cause actual results to differ materially from those described in the forward-looking statements, including without limitation:

- the timing of the enforcement and collection of the Arbitral Award (as defined herein), if at all;
- the costs associated with the enforcement and collection of the Arbitral Award and the complexity and uncertainty of varied legal processes in various international jurisdictions;
- the Company's current liquidity and capital resources and access to additional funding in the future when required;
- continued servicing or restructuring of the Company's outstanding notes or other obligations as they come due;
- shareholder dilution resulting from restructuring or refinancing the Company's outstanding notes and current accounts payable relating to the Company's legal fees;
- shareholder dilution resulting from the conversion of our outstanding notes in part or in whole to equity;
- shareholder dilution resulting from the sale of additional equity;
- value realized from the disposition of the remaining Brisas Project related assets, if any;
- value realized from the disposition of the Brisas Project Technical Mining Data (as defined herein), if any;
- prospects for exploration and development of other mining projects by the Company;

- ability to maintain continued listing on the TSX Venture Exchange or continued trading on the OTCQB;
- corruption, uncertain legal enforcement and political and social instability;
- currency, metal prices and metal production volatility;
- adverse U.S. and/or Canadian tax consequences;
- abilities and continued participation of certain key employees; and
- risks normally incident to the exploration, development and operation of mining properties.

This list is not exhaustive of the factors that may affect any of the company's forward-looking statements. See "Risk Factors" contained in the Company's Annual Information Form and Annual Report on Form 40-F filed on sedar.com and sec.gov, respectively for additional risk factors that could cause results to differ materially from forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in the Company's affairs since the date of this report that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with or furnished to the U.S. Securities and Exchange Commission (the "SEC") or other securities regulators or documents presented on the Company's website. Forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice. The Company disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to the Company's disclosure obligations under applicable U.S. and Canadian securities regulations. Investors are urged to read the Company's filings with U.S. and Canadian securities regulatory agencies, which can be viewed online at www.sec.gov and www.sedar.com, respectively.

GOLD RESERVE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Note 1. The Company, Going Concern and Significant Accounting Policies:

The Company. Gold Reserve Inc. (the "Company") is engaged in the business of acquiring, exploring and developing mining projects. The Company is an exploration stage company incorporated in 1998 under the laws of the Yukon Territory, Canada and continued to Alberta, Canada in September 2014. The Company is the successor issuer to Gold Reserve Corporation which was incorporated in 1956. All amounts shown herein are expressed in U.S. dollars unless otherwise noted.

In February 1999 each Gold Reserve Corporation shareholder exchanged its shares for an equal number of Gold Reserve Inc. Class A common shares except in the case of certain U.S. holders who for tax reasons elected to receive equity units which are comprised of one Gold Reserve Inc. Class B common share and one Gold Reserve Corporation Class B common share and substantially equivalent to a Class A common share. As of March 31, 2015, 100 equity units remained outstanding.

Going Concern. As of March 31, 2015, the Company had financial resources comprised of cash, cash equivalents and marketable securities totaling approximately \$5.1 million and Brisas Project related equipment, which is being marketed for sale, with an estimated fair value of approximately \$12.4 million (See Note 7, Property, Plant and Equipment). The Company's current financial liabilities included notes of \$40.6 million (face value) which mature December 31, 2015 and accounts payable and accrued expenses due in the normal course of approximately \$3.9 million.

The Company has no revenue producing operations at this time and its working capital position, cash burn rate and debt maturity schedule may require that the Company seek additional sources of funding to ensure the Company's ability to continue its activities in the normal course. To address its longer-term funding requirements, primarily the convertible notes due in December 2015, the Company expects to raise additional funds through its continuing efforts to dispose of the remaining Brisas Project related assets, timely collection of the Arbitral Award (as defined herein) or through debt and equity funding alternatives.

The Company's efforts to address its longer-term funding requirements may be adversely impacted by financial market conditions, industry conditions, regulatory approvals or other unknown or unpredictable conditions and, as a result, there can be no assurance that additional funding will be available or, if available, offered on acceptable terms. In view of these uncertainties there is substantial doubt about the Company's ability to continue as a going concern.

These financial statements do not reflect potentially material adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations.

Basis of Presentation and Principles of Consolidation. These consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles. The statements include the accounts of the Company, Gold Reserve Corporation, four Venezuelan subsidiaries, a Mexican subsidiary and four other subsidiaries which were formed to hold the Company's interest in its foreign subsidiaries or for future transactions. All subsidiaries are wholly owned. All intercompany accounts and transactions have been eliminated on consolidation. The Company's policy is to consolidate those subsidiaries where control exists.

Cash and Cash Equivalents. The Company considers short-term, highly liquid investments purchased with an original maturity of three months or less to be cash equivalents for purposes of reporting cash equivalents and cash flows. The cost of these investments approximates fair value. The Company manages the exposure of its cash and cash equivalents to credit risk by diversifying its holdings into major Canadian and U.S. financial institutions.

GOLD RESERVE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Exploration and Development Costs. Exploration costs incurred in locating areas of potential mineralization or evaluating properties or working interests with specific areas of potential mineralization are expensed as incurred. Development costs of proven mining properties not yet producing are capitalized at cost and classified as capitalized exploration costs under property, plant and equipment. Property holding costs are charged to operations during the period if no significant exploration or development activities are being conducted on the related properties. Upon commencement of production, capitalized exploration and development costs would be amortized based on the estimated proven and probable reserves benefited. Properties determined to be impaired or that are abandoned are written-down to the estimated fair value. Carrying values do not necessarily reflect present or future values.

Property, Plant and Equipment. Included in property, plant and equipment is certain equipment which was originally purchased for the Brisas Project at a cost of approximately \$29 million. The carrying value of this equipment has been adjusted to its estimated fair value of \$12.4 million and it is not being depreciated. The recoverable value of this equipment may be different than management's current estimate.

The Company has additional property, plant and equipment which are recorded at the lower of cost less accumulated depreciation or estimated net realizable value. Replacements and major improvements are capitalized. Maintenance and repairs are charged to expense as incurred. The cost and accumulated depreciation of assets retired or sold are removed from the accounts and any resulting gain or loss is reflected in operations. Depreciation is provided using straight-line and accelerated methods over the lesser of the useful life or lease term of the related asset.

Impairment of Long Lived Assets. The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If the sum of the expected future net cash flows to be generated from the use or disposition of a long-lived asset (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss is recognized and the asset is written down to fair value. Fair value is generally determined by discounting estimated cash flows, using quoted market prices where available or making estimates based on the best information available.

Foreign Currency. The U.S. dollar is the Company's (and its foreign subsidiaries') functional currency. Monetary assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the rates of exchange in effect at the balance sheet dates. Non-monetary assets and liabilities are translated at historical rates and revenue and expense items are translated at average exchange rates during the reporting period, except for depreciation which is translated at historical rates. Translation gains and losses are included in the statement of operations.

Stock Based Compensation. The Company maintains the 2012 Equity Incentive Plan (the "2012 Plan") which provides for the grant of stock options to purchase Class A common shares of the Company. The Company uses the fair value method of accounting for stock options. The fair value of options granted to employees is computed using the Black-Scholes method as described in Note 9 and is expensed over the vesting period of the option. For non-employees, the fair value of stock based compensation is recorded as an expense over the vesting period or upon completion of performance. Consideration paid for shares on exercise of share options, in addition to the fair value attributable to stock options granted, is credited to capital stock. The Company also maintains the Gold Reserve Director and Employee Retention Plan. Each Unit granted under the Retention Plan to a participant entitles such person to receive a cash payment equal to the fair market value of one Gold Reserve Class A common Share (1) on the date the Unit was granted or (2) on the date any such participant becomes entitled to payment, whichever is greater. The Company will not accrue a liability for these units until and unless events required for vesting of the units occur. Stock options and Units granted under the respective plans become fully vested and exercisable and/or payable upon a change of control.

Income Taxes. The Company uses the liability method of accounting for income taxes. Deferred tax assets and liabilities are determined based on the differences between the tax basis of assets and liabilities and those amounts reported in the financial statements. The deferred tax assets or liabilities are calculated using the enacted tax rates expected to apply in the periods in which the differences are expected to be settled. Deferred tax assets are recognized to the extent that they are considered more likely than not to be realized.

GOLD RESERVE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Loss Per Share. Net loss per share is computed by dividing net loss by the combined weighted average number of Class A common shares and equity units outstanding during each year. In periods in which a loss is incurred, the effect of potential issuances of shares under options and convertible notes would be anti-dilutive, and therefore basic and diluted losses per share are the same.

Convertible Notes. Convertible notes are initially recorded at fair value and subsequently measured at amortized cost. The fair value is allocated between the equity and debt component parts based on their respective fair values at the time of issuance and recorded net of transaction costs. The equity portion of the notes is estimated using the residual value method. The fair value of the debt component is accreted to the face value of the notes using the effective interest rate method over the expected life of the notes, with the resulting charge recorded as interest expense.

Comprehensive Loss. Comprehensive loss includes net loss and other comprehensive income or loss. Other comprehensive loss may include unrealized gains and losses on available-for-sale securities. The Company presents comprehensive loss and its components in the consolidated statements of comprehensive loss.

Financial Instruments. Marketable equity securities are classified as available for sale with any unrealized gain or loss recorded in other comprehensive income. If a decline in fair value of a security is determined to be other than temporary, an impairment loss is recognized. Cash and cash equivalents, deposits and advances are accounted for at cost which approximates fair value. Accounts payable, convertible notes and interest notes are recorded at amortized cost. Amortized cost of accounts payable approximates fair value.

Contingent Value Rights. Contingent value rights ("CVR") are obligations arising from the disposition of a portion of the rights to future proceeds of the Arbitral Award against Venezuela and/or the sale of the Brisas Project Technical Mining Data that was compiled by the Company.

Warrants. Common share purchase warrants ("Warrants") issued by the Company entitle the holder to acquire common shares of the company at a specific price within a certain time period. The fair value of warrants issued is calculated using the Black-Scholes method.

Note 2. New Accounting Policies:

Adopted in the year

In April 2014, the FASB issued Accounting Standards update ("ASU") 2014-08 which changes the criteria for reporting discontinued operations and adds new disclosure requirements for discontinued operations and individually significant components of an entity that are disposed of or classified as held for sale but do not meet the definition of a discontinued operation. The updated guidance requires an entity to only classify dispositions as discontinued operations due to a major strategic shift or a major effect on an entity's operations in the financial statements. This update was effective for the Company commencing with the reporting period beginning January 1, 2015. Adoption of these requirements did not have a significant impact on the Company's financial statements.

Recently issued accounting pronouncements

In April 2015, the FASB issued ASU 2105-03, Interest – Imputation of interest. This update requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The amendments in this update are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The Company does not expect the adoption of this ASU to have a significant impact on its financial statements.

GOLD RESERVE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

In August 2014, the FASB issued ASU 2014-15 which provides guidance in GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. This update is effective for the Company commencing with the annual period ending after December 15, 2016. The Company is still in the process of evaluating the impact of this standard.

Note 3. Arbitral Award Against Venezuela Related to the Brisas Project:

In October 2009, Gold Reserve initiated a claim (the "Brisas Arbitration") under the Additional Facility Rules of the ICSID of the World Bank. The Company filed its claim to obtain compensation for the losses caused by the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT"). (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1)).

The September 22, 2014 ICSID Arbitral Award

On September 22, 2014, the ICSID Tribunal unanimously awarded to the Company the Arbitral Award totaling (i) \$713 million in damages, plus (ii) pre-award interest from April 2008 through the date of the Award based on the U.S. Government Treasury Bill Rate, compounded annually totaling, as of the date of the Award, approximately \$22.3 million and (iii) \$5 million for legal costs and expenses, for a total, as of September 22, 2014, of \$740.3 million. The Award (less legal costs and expenses) accrues post-award interest at a rate of LIBOR plus 2%, compounded annually (approximately \$52,000 per day) for a total estimated Award as of the date of this report of \$751 million. An ICSID Additional Facility Award is enforceable globally in jurisdictions that allow for the recognition and enforcement of commercial arbitral awards.

The December 15, 2014 Reconfirmation of Arbitral Award

Subsequent to the issuance of the Arbitral Award, Venezuela and the Company filed requests for the ICSID Tribunal to correct what each party identified as "clerical, arithmetical or similar errors" in the Award as is permitted by the rules of ICSID's Additional Facility. The Company identified what it considered an inadvertent arithmetic error that warranted an increase in the Award of approximately \$50 million and Venezuela identified what it contended were significant inadvertent arithmetic errors that supported a reduction of the Award by approximately \$361 million.

On December 15, 2014, the Tribunal denied both parties' requests for correction and reaffirmed the Award originally rendered in favor of Gold Reserve on September 22, 2014 (the "December 15th Decision"). This proceeding marked the end of the Tribunal's jurisdiction with respect to the Award.

Legal Activities in France

The Award was issued by a Tribunal constituted pursuant to the arbitration rules of ICSID's Additional Facility and, by agreement of the parties, the seat of the Tribunal was in Paris. As a consequence, the Award is subject to review by the French courts.

Venezuela's Requests for Annulment

Application for Annulment of the September 22, 2014 ICSID Arbitral Award

In late October 2014, Venezuela filed an application before the Paris Court of Appeal, declaring its intent to have the September 2014 Award annulled or set aside. According to the schedule established by the Paris Court of Appeal, written pleadings are to be closed by October 15, 2015 and the hearing of Venezuela's application to annul is to take place on November 3, 2015. At this stage, the Company expects that a judgment on Venezuela's application will be rendered before the end of the year, although this is a matter over which the Company has no control.

GOLD RESERVE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Application for Annulment of the December 15, 2014 Reconfirmation of Arbitral Award

Venezuela also filed an application before the Paris Court of Appeal to annul the December 15th Decision whereby the Tribunal dismissed Venezuela's motion to correct the Award (see December 15, 2014 Reconfirmation of Arbitral Award above). Venezuela filed its brief on this matter on May 5, 2015 and on May 7, 2015 the Paris Court of Appeal accepted a proposal by both parties to follow the same procedural schedule established for the initial application for annulment discussed above which could allow a decision on both of Venezuela's annulment applications before the end of the year although, similar to the initial application for annulment, this is a matter over which the Company has no control. Neither annulment proceedings discussed herein affect the finality of the Award or its enforceability in the interim.

Petition for Exequatur

In early November 2014, the Company filed a petition before the Paris Court of Appeal to obtain an order of *exequatur* for the recognition of the Company's Award as a judgment of the Court. Venezuela opposed the Company's petition and requested a stay of execution pending the determination of its application for annulment of the Award discussed above. On January 29, 2015, the Paris Court of Appeal granted the Company's petition for *exequatur* and dismissed Venezuela's request to stay the execution of the Award pending the outcome of its application to annul the Award. Since Venezuela was denied its motion to stay the execution of the Award, the *exequatur* or recognition of the Company's ICSID Award as a judgement of the Court, granted on January 29, 2015, is not appealable and remains in full force and effect.

Legal Activities in US District Court for the District of Columbia

On November 26, 2014 the Company filed, in the US District Court for the District of Columbia ("DDC"), a petition to confirm the Award dated September 22, 2014. Once the Award is confirmed it will be enforceable in the United States as a judgment of the court. Venezuela initially avoided service related to the filing, refused, among other things, to authorize its U.S. counsel to accept service and otherwise contested the validity of service.

Subsequently on April 15, 2015, Venezuela agreed to accept service of Gold Reserve's Petition to confirm the Award and further agreed to respond to the Petition on or before June 12, 2015 (sixty days of the agreed service date). The Company's intention is to move expeditiously towards obtaining confirmation of the Award in the U.S. and consider enforcement options in due course.

Legal Activities in Luxembourg

On October 28, 2014, the Company was granted an *exequatur* for the recognition and execution of the Award by Tribunal d'arrondissement de et à Luxembourg. As a result, the Company is free to proceed with conservatory or attachment actions against Venezuela's assets in the Grand Duchy of Luxembourg. On January 12, 2015, Venezuela filed a notice of appeal of this decision in the Cour d'appel de Luxembourg (the "Luxembourg Court of Appeal") asking for a stay of execution pending the determination of its application to annul the Award before the Paris Court of Appeal. The Luxembourg Court of Appeal subsequently issued a scheduling direction, dividing Venezuela's arguments in two and ordering that the arguments on form and the request for stay of execution be heard together, on May 21, 2015. In accordance with the scheduling direction, the Company filed its response to Venezuela's first set of arguments, on March 16, 2015, Venezuela filed a reply on April 21, 2015 and, thereafter the Company filed its reply on April 30, 2015.

The Company, on several occasions, served on various Luxembourg banks the equivalent of writs of garnishment relating to interest payments on Venezuela sovereign bonds and any other funds owned by Venezuela. These banks were chosen because they are designated as paying agents or transfer agents in listing memoranda relating to various bonds issued by Venezuela and listed on the Luxembourg Stock Exchange. The banks continue to deny holding funds for the account of Venezuela, which appears to contradict the information contained in the listing memoranda. As a result, the Company intends to have the issue determined by the appropriate court or judge having jurisdiction in Luxembourg over such matters.

Communications with Venezuela

Representatives from Venezuela and the Company have had a number of communications regarding the satisfaction of the Award with no agreement to-date. While Venezuela continues to challenge the validity and/or amount of the Arbitral Award and vigorously opposes actions the Company has taken in the various jurisdictions to effect enforcement and payment of the Award, the Company believes that Venezuela will ultimately honor its international obligations although there can be no assurances in this regard. The Company remains firmly committed to the enforcement and collection of the Arbitral Award including accrued interest in full and will continue to vigorously pursue all available remedies accordingly in every jurisdiction where it perceives that it can draw a benefit that will bring it closer to the collection of the Arbitral Award.

The Company's Intent to Distribute Collection of the Arbitral Award to Shareholders

Subject to applicable regulatory requirements regarding capital and reserves for operating expenses, accounts payable and income taxes, and any obligations arising as a result of the collection of the ICSID Award including payments pursuant to the terms of the convertible notes (if not otherwise converted), Interest Notes, CVR's, Bonus Plan and Retention Plan (all as defined herein) or undertakings made to a court of law, the Company's current plans are to distribute to its shareholders, in the most cost efficient manner, a substantial majority of any net proceeds.

Obligations Due Upon Collection of Arbitral Award and Sale of Brisas Technical Mining Data

The Board of Directors (the "Board") approved a Bonus Pool Plan ("Bonus Plan") in May 2012, which is intended to reward the participants, including executive officers, employees, directors and consultants, for their past and future contributions including their efforts related to the development of the Brisas Project, execution of the Brisas Arbitration and the collection of an award, if any. The bonus pool under the Bonus Plan will generally be comprised of the gross proceeds collected or the fair value of any consideration realized related to such transactions less applicable taxes times 1% of the first \$200 million and 5% thereafter. Participation in the Bonus Plan vests upon the participant's selection by the Committee of independent directors, subject to voluntary termination of employment or termination for cause. The Company also maintains the Gold Reserve Director and Employee Retention Plan (See Note 9, Stock Based Compensation Plans). Units ("Retention Units") granted under the plan become fully vested and payable upon: (1) collection of proceeds from the Arbitral Award and/or sale of mining data and the Company agrees to distribute a substantial majority of the proceeds to its shareholders or, (2) the event of a change of control. The Company currently does not accrue a liability for the Bonus or Retention Plan as events required for payment under the Plans have not yet occurred.

The Company has outstanding contingent value rights ("CVR's") which entitles each note holder that participated in the 2012 Restructuring (as defined herein) to receive, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), a pro rata portion of a maximum aggregate amount of 5.468% of the proceeds actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the technical data related to the development of the Brisas Project that was compiled by the Company (the "Brisas Project Technical Mining Data"). The proceeds, if any, could be cash, commodities, bonds, shares and/or any other consideration received by the Company and if such proceeds are other than cash, the fair market value of such non-cash proceeds, net of any required deductions (e.g., for taxes) will be subject to the CVR's and will become an obligation of the Company only as the Arbitral Award is collected.

Included in accounts payable is approximately \$2.9 million which represents legal fees deferred during the arbitration but now payable as a result of the Arbitral Award. In addition, the Company is obligated to pay contingent legal fees of approximately \$1.7 million due upon the collection of the Award.

Increase in market value	27,943	19,578
Fair value at balance sheet date	<u>\$ 203,484</u>	<u>\$ 175,541</u>

The Company's marketable securities are classified as available-for-sale and are recorded at quoted market value with gains and losses recorded within other comprehensive income until realized or impaired. Realized gains and losses are based on the average cost of the shares held at the date of disposition. As of March 31, 2015 and December 31, 2014, marketable securities had a cost basis of \$158,537.

Note 6. Fair Value Measurements:

Accounting Standards Codification ("ASC") 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels: Level 1 inputs are quoted prices in active markets for identical assets or liabilities, Level 2 inputs are inputs other than quoted prices included within Level 1 that are directly or indirectly observable for the asset or liability and Level 3 inputs are unobservable inputs for the asset or liability that reflect the entity's own assumptions.

	<u>\$ 13,150,807</u>	<u>\$ (710,153)</u>	<u>\$ 12,440,654</u>

Machinery and equipment consists of infrastructure and milling equipment previously intended for use on the Brisas Project. In 2014, based on an updated market valuation for mining equipment which included the review of transactions involving comparable assets, the Company recorded a further \$6.5 million write-down of this equipment to an estimated net realizable value.

Note 8. KSOP Plan:

The KSOP Plan, adopted in 1990 for retirement benefits of employees, is comprised of two parts, (1) a salary reduction component, and a 401(k) which includes provisions for discretionary contributions by the Company, and (2) an employee share ownership component, or ESOP. Allocation of common shares or cash to participants' accounts, subject to certain limitations, is at the discretion of the Board. There have been no common shares allocated to the Plan since 2011. Cash contributions for plan year 2014 were approximately \$164,000. As of March 31, 2015, no contributions by the Company had been made for plan year 2015.

Note 9. Stock Based Compensation Plans:

Equity Incentive Plans

On June 27, 2012, the shareholders approved the 2012 Equity Incentive Plan (the "2012 Plan") to replace the Company's previous equity incentive plans. In 2014, the Board amended and restated the 2012 Plan changing the maximum number of Class A common shares issuable under options granted under the 2012 Plan from a "rolling" 10% of the outstanding Class A common shares to a fixed number of 7,550,000 Class A common shares. As of March 31, 2015, there were 1,734,500 options available for grant. Grants are made for terms of up to ten years with vesting periods as required by the TSXV and as may be determined by a committee established pursuant to the 2012 Plan, or in certain cases, by the Board.

Share option transactions for the three months ended March 31, 2015 and 2014 are as follows:

GOLD RESERVE INC.

\$4.02 - \$4.02	310,000	\$4.02	-	9.32	206,663	\$4.02	-	9.32
\$1.82 - \$4.02	5,798,000	\$2.34	\$9,632,905	2.59	5,619,663	\$2.29	\$9,624,655	2.43

During the three months ended March 31, 2015, the Company granted 100,000 stock options. The Company recorded non-cash compensation expense during the three months ended March 31, 2015 and 2014 of approximately \$60,000 and NIL, respectively for stock options granted in 2015 and prior periods.

The weighted average fair value of the options granted in 2015 was calculated at \$0.87. The fair value of options granted was determined using the Black-Scholes model based on the following weighted average assumptions:

Risk free interest rate	0.70%
Expected term	2 years
Expected volatility	39%
Dividend yield	nil

The risk free interest rate is based on the US Treasury rate on the date of grant for a period equal to the expected term of the option. The expected term is based on historical exercise experience and projected post-vesting behavior. The expected volatility is based on historical volatility of the Company's stock over a period equal to the expected term of the option.

GOLD RESERVE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Retention Units Plan

The Company also maintains the Gold Reserve Director and Employee Retention Plan. Units granted under the plan become fully vested and payable upon: (1) collection of Arbitral Award proceeds from the ICSID arbitration process and/or sale of mining data and the Company agrees to distribute a substantial majority of the proceeds to its shareholders or, (2) the event of a change of control. Each unit granted to a participant entitles such person to receive a cash payment equal to the fair market value of one Gold Reserve Class A common share (1) on the date the unit was granted or (2) on the date any such participant becomes entitled to payment, whichever is greater. As of March 31, 2015 an aggregate of 1,457,500 unvested units have been granted to directors and executive officers of the Company and 315,000 units have been granted to other employees. The Company currently does not accrue a liability for these units as events required for vesting of the units have not yet occurred. The minimum value of these units, based on the grant date value of the Class A common shares, was approximately \$7.7 million.

Note 10. Shareholder Rights Plan:

The Company instituted a shareholder rights plan (the "Rights Plan") in 1999. Since the original approval by the shareholders, the Rights Plan has been amended and continued from time to time. In June 2012, the shareholders approved certain amendments to the Rights Plan including continuing the Rights Plan until June 30, 2015 and providing a one-time exemption to a noteholder (who presently owns approximately 26% of the Class A common shares) from triggering the Rights Plan as a result of a restructuring of convertible notes in November 2012. The Rights Plan is designed to give the Board time to consider alternatives, allow shareholders time to properly assess the merits of a bid and ensure they receive full and fair value for their common shares. One right is issued in respect of each outstanding share. The rights become exercisable only when a person, including any party related to it or acting jointly with it, acquires or announces its intention to acquire 20% or more of the Company's outstanding shares without complying with the "permitted bid" provisions of the Rights Plan. Each right would, on exercise, entitle the holder, other than the acquiring person and related persons, to purchase Class A common shares of the Company at a 50% discount to the market price at the time.

Note 11. Convertible Notes and Interest Notes:

In the fourth quarter of 2012, the Company restructured \$85.4 million aggregate principal amount of Old Notes (the "2012 Restructuring"). Holders of an aggregate principal amount of \$84.4 million of Old Notes elected to participate in the 2012 Restructuring and \$1.0 million of Old Notes declined to participate. Pursuant to the 2012 Restructuring, the Company paid \$16.9 million cash, issued 12,412,501 Class A common shares, issued notes with a face value of \$25.3 million (the "Modified Notes") and issued CVR's totaling 5.468% of any future proceeds, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the Brisas Project Technical Mining Data.

During the second quarter of 2014, the Company extended the maturity date of its \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million of additional notes ("New Notes") also maturing December 31, 2015. \$19.2 million of the Modified Notes and \$8 million of the New Notes were issued to affiliated funds which exercised control or direction over more than 10% of the Company's common shares prior to the transactions and as a result, those portions of the transactions were considered to be related party transactions. The Modified Notes were amended to be consistent with the terms of the New Notes. The Company has an additional \$1.0 million notes issued in May 2007 (Old Notes) with a maturity date of June 15, 2022. The Old Notes bear interest at a rate of 5.50% per year, payable semiannually in arrears on June 15 and December 15 and, subject to certain conditions, may be redeemed, repurchased or converted into Class A common shares of the Company at a conversion price of \$7.54 per common share.

GOLD RESERVE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

The New Notes and the Modified Notes (as amended from the date of closing) (the "Notes") bear interest at a rate of 11% per year, which will be accrued quarterly, issued in the form of a note (Interest Notes) payable in cash at maturity. Subject to certain conditions, the outstanding principal of the Notes may be converted into Class A common shares of the Company, redeemed or repurchased prior to maturity. The Notes mature on December 31, 2015 and are convertible, at the option of the holder, into 285.71 Class A common shares per \$1,000 (equivalent to a conversion price of \$3.50 per common share) at any time upon prior written notice to the Company. The Company paid, in the case of the New Notes, a fee of 2.5% of the principal in the form of an original issue discount and in the case of the Modified Notes, a cash extension fee of 2.5% of the principal.

The Notes are senior unsecured, equal in rank and subject to certain terms including: (1) the technical data related to the development of the Brisas Project that was compiled by the Company and any award related to the Brisas Arbitration may not be pledged without consent of holders comprising at least 75% in principal amount of Notes; (2) the Company may not incur any additional indebtedness that ranks senior to or pari passu with the Notes in any respect without consent of holders comprising at least 75% in principal amount of Notes; (3) each Noteholder will have the right to participate, on a pro rata basis based on the amount of equity it holds, including equity issuable upon conversion of convertible securities, in any future equity or debt financing; (4) the Notes shall be redeemable on a pro rata basis, by the Company at the Noteholders' option, at a price equal to 120% of the outstanding principal balance upon the issuance of a final Arbitration Award, with respect to which enforcement has not been stayed and no annulment proceeding is pending; provided the Company shall only be obligated to make a redemption to the extent net cash proceeds received are in excess of \$20,000,000, net of taxes and \$13,500,000 to fund accrued and unpaid prospective operating expenses; (5) capital expenditures (including exploration and related activities) shall not exceed \$500,000 in any 12-month period without the prior consent of holders of a majority of the Notes; and (6) the Company shall not agree with any of the Noteholders to any amendment or modification to any terms of the Notes, provide any fees or other compensation whether in cash or in kind to any holder of the Notes, or engage in the repurchase, redemption or other defeasance of any Notes without offering such terms, compensation or defeasance to all holders of the Notes on an equitable and pro-rata basis.

Accounting standards require the Company to allocate the convertible notes between their equity and liability component parts based on their respective fair values at the time of issuance. The liability component was computed by discounting the stream of future payments of interest and principal at the prevailing market rate for a similar liability that does not have an associated equity component. The equity portion of the notes was estimated using the residual value method at approximately \$6.5 million net of issuance costs. The fair value of the liability component is accreted to the face value of the Notes using the effective interest rate method over the expected life of the Notes, with the resulting charge recorded as interest expense. Extinguishment accounting was used for the Modified Notes resulting in a loss of \$0.2 million in the second quarter of 2014 due to the unamortized discount remaining on the notes prior to the restructuring. As of March 31, 2015, the Company had \$38.4 million face value convertible notes and \$3.3 million face value interest notes outstanding.

Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

This Management's Discussion and Analysis of Financial Condition and Results of Operations, dated May 14, 2015 is intended to assist in understanding and assessing our results of operations and financial condition and should be read in conjunction with the consolidated financial statements and related notes.

Gold Reserve, an exploration stage company, is engaged in the business of acquiring, exploring and developing mining projects. Management's recent efforts have included:

- concluding its arbitration claim (the "Brisas Arbitration") against Venezuela in connection with the seizure of the Company's Brisas Project through the issuance by the tribunal (the "ICSID Tribunal" or "Tribunal") of the International Center for Investment Disputes (the "ICSID") of an arbitral award (the "Arbitral Award" or "Award") on September 22, 2014 and reconfirmation on December 15, 2014;
- pursuing any and all means to ensure timely payment of the Arbitral Award by the government of Venezuela and identifying appropriate assets that might be seized or attached in satisfaction of the Arbitral Award;
- negotiating and closing an agreement to extend the maturity date of \$25.3 million aggregate principal amount of convertible notes (the "Modified Notes") from June 29, 2014 to December 31, 2015, issue \$12 million of new notes (the "New Notes") also maturing December 31, 2015 and agreeing to pay future interest on the Modified and New Notes at 11% interest in the form of a note (the "Interest Notes") payable in cash at maturity on December 31, 2015;
- pursuing all efforts to sell the remaining Brisas Project related assets; and
- evaluating other exploration mining prospects.

Brisas Arbitration

In October 2009, Gold Reserve initiated a claim (the "Brisas Arbitration") under the Additional Facility Rules of the ICSID of the World Bank. The Company filed its claim to obtain compensation for the losses caused by the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT"). (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1)).

The September 22, 2014 ICSID Arbitral Award

On September 22, 2014, the ICSID Tribunal unanimously awarded to the Company the Arbitral Award totaling (i) \$713 million in damages, plus (ii) pre-award interest from April 2008 through the date of the Award based on the U.S. Government Treasury Bill Rate, compounded annually totaling, as of the date of the Award, approximately \$22.3 million and (iii) \$5 million for legal costs and expenses, for a total, as of September 22, 2014, of \$740.3 million. The Award (less legal costs and expenses) accrues post-award interest at a rate of LIBOR plus 2%, compounded annually (approximately \$52,000 per day) for a total estimated Award obligation as of the date of this report of \$751 million. An ICSID Additional Facility Award is enforceable globally in jurisdictions that allow for the recognition and enforcement of commercial arbitral awards.

The December 15, 2014 Reconfirmation of Arbitral Award

Subsequent to the issuance of the Arbitral Award, Venezuela and the Company filed requests for the ICSID Tribunal to correct what each party identified as "clerical, arithmetical or similar errors" in the Award as is permitted by the rules of ICSID's Additional Facility. The Company identified what it considered an inadvertent arithmetic error that warranted an increase in the Award of approximately \$50 million and Venezuela identified what it contended were significant inadvertent arithmetic errors that supported a reduction of the Award by approximately \$361 million.

On December 15, 2014, the Tribunal denied both parties' requests for correction and reaffirmed the Award originally rendered in favor of Gold Reserve on September 22, 2014 (the "December 15th Decision"). This proceeding marked the end of the Tribunal's jurisdiction with respect to the Award.

Legal Activities in France

The Award was issued by a Tribunal constituted pursuant to the arbitration rules of ICSID's Additional Facility and, by agreement of the parties, the seat of the Tribunal was in Paris. As a consequence, the Award is subject to review by the French courts.

Venezuela's Requests for Annulment

Application for Annulment of the September 22, 2014 ICSID Arbitral Award

In late October 2014, Venezuela filed an application before the Paris Court of Appeal, declaring its intent to have the September 2014 Award annulled or set aside. According to the schedule established by the Paris Court of Appeal, written pleadings are to be closed by October 15, 2015 and the hearing of Venezuela's application to annul is to take place on November 3, 2015. At this stage, the Company expects that a judgment on Venezuela's application will be rendered before the end of the year, although this is a matter over which the Company has no control.

Application for Annulment of the December 15, 2014 Reconfirmation of Arbitral Award

Venezuela also filed an application before the Paris Court of Appeal to annul the December 15th Decision whereby the Tribunal dismissed Venezuela's motion to correct the Award (see December 15, 2014 Reconfirmation of Arbitral Award above). Venezuela filed its brief on this matter on May 5, 2015 and on May 7, 2015 the Paris Court of Appeal accepted a proposal by both parties to follow the same procedural schedule established for the initial application for annulment discussed above which could allow a decision on both of Venezuela's annulment applications before the end of the year although, similar to the initial application for annulment, this is a matter over which the Company has no control. Neither annulment proceedings discussed herein affect the finality of the Award or its enforceability in the interim.

Petition for Exequatur

In early November 2014, the Company filed a petition before the Paris Court of Appeal to obtain an order of *exequatur* for the recognition of the Company's Award as a judgment of the Court. Venezuela opposed the Company's petition and requested a stay of execution pending the determination of its application for annulment of the Award discussed above. On January 29, 2015, the Paris Court of Appeal granted the Company's petition for *exequatur* and dismissed Venezuela's request to stay the execution of the Award pending the outcome of its application to annul the Award. Since Venezuela was denied its motion to stay the execution of the Award, the *exequatur* or recognition of the Company's ICSID Award as a judgement of the Court, granted on January 29, 2015, is not appealable and remains in full force and effect.

Legal Activities in US District Court for the District of Columbia

On November 26, 2014 the Company filed, in the US District Court for the District of Columbia ("DDC"), a petition to confirm the Award dated September 22, 2014. Once the Award is confirmed it will be enforceable in the United States as a judgment of the court. Venezuela initially avoided service related to the filing, refused, among other things, to authorize its U.S. counsel to accept service and otherwise contested the validity of service.

Subsequently on April 15, 2015, Venezuela agreed to accept service of Gold Reserve's Petition to confirm the Award and further agreed to respond to the Petition on or before June 12, 2015 (sixty days of the agreed service date). The Company's intention is to move expeditiously towards obtaining confirmation of the Award in the U.S. and consider enforcement options in due course.

Legal Activities in Luxembourg

On October 28, 2014, the Company was granted an *exequatur* for the recognition and execution of the Award by Tribunal d'arrondissement de et à Luxembourg. As a result, the Company is free to proceed with conservatory or attachment actions against Venezuela's assets in the Grand Duchy of Luxembourg. On January 12, 2015, Venezuela filed a notice of appeal of this decision in the Cour d'appel de Luxembourg (the "Luxembourg Court of Appeal") asking for a stay of execution pending the determination of its application to annul the Award before the Paris Court of Appeal. The Luxembourg Court of Appeal subsequently issued a scheduling direction, dividing Venezuela's arguments in two and ordering that the arguments on form and the request for stay of execution be heard together, on May 21, 2015. In accordance with the scheduling direction, the Company filed its response to Venezuela's first set of arguments, on March 16, 2015, Venezuela filed a reply on April 21, 2015 and, thereafter the Company filed its reply on April 30, 2015.

The Company, on several occasions, served on various Luxembourg banks the equivalent of writs of garnishment relating to interest payments on Venezuela sovereign bonds and any other funds owned by Venezuela. These banks were chosen because they are designated as paying agents or transfer agents in listing memoranda relating to various bonds issued by Venezuela and listed on the Luxembourg Stock Exchange. The banks continue to deny holding funds for the account of Venezuela, which appears to contradict the information contained in the listing memoranda. As a result, the Company intends to have the issue determined by the appropriate court or judge having jurisdiction in Luxembourg over such matters.

Communications with Venezuela

Representatives from Venezuela and the Company have had a number of communications regarding the satisfaction of the Award with no agreement to-date. While Venezuela continues to challenge the validity and/or amount of the Arbitral Award and vigorously opposes actions the Company has taken in the various jurisdictions to effect enforcement and payment of the Award, the Company believes that Venezuela will ultimately honor its international obligations although there can be no assurances in this regard. The Company remains firmly committed to the enforcement and collection of the Arbitral Award including accrued interest in full and will continue to vigorously pursue all available remedies accordingly in every jurisdiction where it perceives that it can draw a benefit that will bring it closer to the collection of the Arbitral Award.

Venezuela's Intent to Develop the Brisas/Las Cristinas Mine

Historically Venezuela has publicly stated its intent to develop the Brisas Project and contiguous areas and has reportedly had discussions with one or more major corporations for initial studies related to the development and eventual construction of the Brisas or Brisas-Cristinas mine as a large gold-copper complex. In December 2013, the Venezuelan government granted the gold exploration and mining rights in three areas located in Bolivar State (including the area of the Brisas gold and copper deposit) valued at \$30 billion to Empresa Nacional Aurifera, S.A. ("ENA"), a subsidiary of the Venezuelan State-owned oil company Petróleos de Venezuela, S.A. ("PDVSA") and concurrently ENA sold a 40% interest to Venezuela's central bank, Banco Central de Venezuela (BCV) for an estimated \$12 billion allowing PDVSA to offset promissory notes payable to BCV totaling \$21.5 billion and record a gain on the transaction of approximately \$9.5 billion. Gold Reserve is prepared to assist Venezuela to find a joint solution that would include the transfer of the extensive technical data related to the development of the Brisas Project that was compiled by the Company. This would allow PDVSA, ENA, BCV and their contractor/consultants to develop Brisas on an accelerated basis for the benefit of Venezuela, with appropriate compensation for the Company apart from the collection of any payments associated with the Award.

The Company's Intent to Distribute Collection of the Arbitral Award to Shareholders

Subject to applicable regulatory requirements regarding capital and reserves for operating expenses, accounts payable and income taxes, and any obligations arising as a result of the collection of the ICSID Award including payments pursuant to the terms of the convertible notes (if not otherwise converted), Interest Notes, CVR's, Bonus Plan and Retention Plan (all as defined herein) or undertakings made to a court of law, the Company's current plans are to distribute to its shareholders, in the most cost efficient manner, a substantial majority of any net proceeds.

Obligations Due Upon Collection of Arbitral Award and Sale of Brisas Technical Mining Data

The Board of Directors (the "Board") approved a Bonus Pool Plan ("Bonus Plan") in May 2012, which is intended to reward the participants, including executive officers, employees, directors and consultants, for their past and future contributions including their efforts related to the development of the Brisas Project, execution of the Brisas Arbitration and the collection of an award, if any. The bonus pool under the Bonus Plan will generally be comprised of the gross proceeds collected or the fair value of any consideration realized related to such transactions less applicable taxes times 1% of the first \$200 million and 5% thereafter. Participation in the Bonus Plan vests upon the participant's selection by the Committee of independent directors, subject to voluntary termination of employment or termination for cause. The Company also maintains the Gold Reserve Director and Employee Retention Plan (see Note 9 to the consolidated financial statements). Units ("Retention Units") granted under the plan become fully vested and payable upon: (1) collection of proceeds from the Arbitral Award and/or sale of mining data and the Company agrees to distribute a substantial majority of the proceeds to its shareholders or, (2) the event of a change of control. The Company currently does not accrue a liability for the Bonus or Retention Plan as events required for payment under the Plans have not yet occurred.

The Company has outstanding contingent value rights ("CVR's") which entitles each note holder that participated in the 2012 Restructuring (as defined herein) to receive, net of certain deductions (including income tax calculation and the payment of current obligations of the Company), a pro rata portion of a maximum aggregate amount of 5.468% of the proceeds actually received by the Company with respect to the Brisas Arbitration proceedings or disposition of the technical data related to the development of the Brisas Project that was compiled by the Company (the "Brisas Project Technical Mining Data"). The proceeds, if any, could be cash, commodities, bonds, shares and/or any other consideration received by the Company and if such proceeds are other than cash, the fair market value of such non-cash proceeds, net of any required deductions (e.g., for taxes) will be subject to the CVR's and will become an obligation of the Company only as the Arbitral Award is collected.

Included in accounts payable is approximately \$2.9 million which represents legal fees deferred during the arbitration but now payable as a result of the Arbitral Award. In addition, the Company is obligated to pay contingent legal fees of approximately \$1.7 million due upon the collection of the Award.

Exploration Prospects

La Tortuga Property

In April 2012, Soltoro Ltd. granted the Company the right to earn an undivided 51% interest in the 11,562 hectare La Tortuga property, a copper and gold prospect located in Jalisco State, Mexico, by making an aggregate \$3.65 million in option payments and property expenditures over three years. Subsequently the Board concluded that continued investment in the property was no longer warranted and the Company expensed all previously capitalized costs as of June 30, 2014 and formally terminated its option on the property in August 2014.

The Company continues to evaluate alternative prospects with a focus on, among other things, location, the mineralized potential, economic factors and the level and quality of previous work completed on the prospect. The Company is focused on prospects that are located in politically friendly jurisdictions, which have a clear and well-established mining, tax and environmental laws and an experienced mining authority.

Financial Overview

The Company's overall financial position continues to be influenced by a number of significant historical events: the seizure of the Brisas Project by the Venezuelan government, legal costs related to obtaining the Arbitral Award and efforts to enforce and collect it, interest expense related to notes payable, the subsequent write-off of the accumulated Brisas Project development costs, impairment of the value of the equipment originally acquired for the Brisas Project and our restructuring of outstanding debt in 2012 and 2014.

Recent operating results continue to be shaped by expenses associated with the enforcement and collection of the Arbitral Award in various international jurisdictions, interest expense related to our debt, write-down of Brisas Project equipment during 2014 and maintaining the Company's legal and regulatory obligations in good standing.

The Company has no commercial production and, as a result, continues to experience losses from operations, a trend the Company expects to continue unless the Company collects, in part or whole, the Arbitral Award and/or acquires and develops a mineral project which results in positive results from operations.

Historically the Company has financed its operations through the issuance of common stock, other equity securities and debt. The timing of any future investments or transactions if any, and the amounts that may be required cannot be determined at this time and are subject to available cash, the collection, if any, of the Award, sale of remaining Brisas Project related equipment, the timing of the conversion or maturity of the outstanding convertible notes and/or future financings, if any. The Company has only one operating segment, the exploration and development of mineral properties

The Company's efforts to address its longer-term funding requirements may be adversely impacted by financial market conditions, industry conditions, regulatory approvals or other unknown or unpredictable conditions and, as a result, there can be no assurance that additional funding will be available or, if available, offered on acceptable terms. In view of these uncertainties there is substantial doubt about the Company's ability to continue as a going concern.

During the second quarter of 2014, the Company extended the maturity date of its \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015 and issued \$12 million of New Notes also maturing December 31, 2015, net of costs of approximately \$1.3 million. The Modified Notes were amended to be consistent with the terms of the New Notes (as more fully described herein and in Note 11 to the consolidated financial statements).

The Company also continues its efforts to dispose of the remaining Brisas Project assets, pursue a timely completion of the Brisas Arbitration claim before ICSID and maintain its willingness to pursue settlement discussions relating to our dispute with the Venezuelan government.

Liquidity and Capital Resources

At March 31, 2015, the Company had cash and cash equivalents of approximately \$4.9 million which represents a decrease from December 31, 2014 of approximately \$1.6 million. The net decrease was due to cash used by operations as more fully described in the "Operating Activities" section below.

		<u>2015</u>		<u>Change</u>		<u>2014</u>
Cash and cash equivalents	\$	4,880,184	\$	(1,558,963)	\$	6,439,147

As of March 31, 2015, the Company had financial resources including cash, cash equivalents and marketable securities totaling approximately \$5.1 million, Brisas Project related equipment which is subject to disposal with an estimated fair value of approximately \$12.4 million (See Note 7 to the consolidated financial statements) and short-term financial obligations including convertible notes and interest notes of \$40.6 million face value and accounts payable and accrued expenses of approximately \$3.9 million. Included in accounts payable is approximately \$2.9 million which represents legal fees deferred during the arbitration but now payable as a result of the Award. In addition, the Company is obligated to pay contingent legal fees of approximately \$1.7 million due upon the collection of the Award. As of the date of this report, the Company had approximately \$4.5 million in cash and investments, which are held primarily in U.S. dollar denominated accounts.

The Company has no revenue producing operations at this time and its working capital position, cash burn rate and debt maturity schedule will require the Company to seek additional sources of funding to ensure the Company's ability to continue its activities in the normal course. To address its longer-term funding requirements, primarily the convertible notes due in December 2015, the Company is continuing its efforts to dispose of the remaining Brisas Project related assets and pursue a timely and successful collection of the Arbitral Award and sale of the Brisas Project Technical Mining Data. The Company may also initiate other debt and equity funding alternatives that may be available.

Operating Activities

Cash flow used in operating activities for the three months ended March 31, 2015 and 2014 was approximately \$1.6 million and \$1.4 million, respectively. Cash flow used in operating activities consists of net operating losses (the components of which are more fully discussed below) adjusted for non-cash expense items primarily related to accretion of convertible notes recorded as interest expense, stock option compensation and certain changes in working capital.

Cash flow used in operating activities during the three months ended March 31, 2015 increased from the prior comparable period primarily due to an increase in costs associated with the enforcement and collection of the Arbitral Award partially offset by a decrease in exploration expense.

Investing Activities

The Company did not have cash flows from investing activities during the three months ended March 31, 2015 and 2014. As of March 31, 2015, the Company held approximately \$12.4 million of Brisas project related equipment intended for future sale.

Financing Activities

The Company had no cash flows from financing activities in the first quarter of 2015. In 2014, the Company had net proceeds from the issuance of common shares related to the exercise of employee stock options totaling \$68,250.

Contractual Obligations

The following table sets forth information on the Company's material contractual obligation payments for the periods indicated as of March 31, 2015 (For further details see Note 11 to the consolidated financial statements):

	Payments due by Period				
	Total	Less than 1 Year	1-3 Years	4-5 Years	More Than 5 Years
Convertible Notes ^{1,2}	\$ 38,350,000	\$ 37,308,000	\$ -	\$ -	\$ 1,042,000
Interest Notes ²	6,754,086	6,754,086	-	-	-
Interest	429,825	57,310	114,620	114,620	143,275
	\$ 45,533,911	\$ 44,119,396	\$ 114,620	\$ 114,620	\$ 1,185,275

- 1 Includes \$37,308,000 principal amount of 11% convertible notes due December 31, 2015 and \$1,042,000 principal amount of 5.50% convertible notes due June 15, 2022. Subject to certain conditions, the notes may be converted into Class A common shares of the Company, redeemed or repurchased. The amounts shown above include the interest and principal payments due unless the notes are converted, redeemed or repurchased prior to their due date (See Note 11 to the consolidated financial statements).

The convertible notes consist of \$25,308,000 of notes issued in 2012 pursuant to the 2012 Restructuring and subsequently extended and amended pursuant to the 2014 Restructuring (the "Modified Notes"); \$12,000,000 of notes issued in 2014 pursuant to the 2014 Restructuring (the "New Notes") and \$1,042,000 of notes originally issued in May 2007 and still outstanding (the "Old Notes"). Interest Notes consist of interest at 11% per year due on the Modified Notes and the New Notes which is accrued and paid quarterly in the form of a note which is payable in cash at maturity.

The 2012 Restructuring refers to the exchange by the Company and the holders of \$102.3 million of Old Notes for \$33.8 million cash, 12,412,501 Class A common shares, modified notes with a face value of \$25.3 million ("Modified Notes") and contingent value rights ("CVR's") totaling 5.468% of any future proceeds, net of certain deductions.

The 2014 Restructuring refers to the extension of the maturity date of the \$25.3 million Modified Notes from June 29, 2014 to December 31, 2015, the issuance of \$12 million of New Notes also maturing December 31, 2015. The interest paid on the Modified Notes was increased to 11% from 5.5% to be consistent with the interest paid on the New Notes.

- 2 The amount recorded as convertible notes and interest notes in the consolidated balance sheet as of March 31, 2015 is comprised of \$35.6 million carrying value of Modified Notes, New Notes and Interest Notes (all due on December 31, 2015) issued pursuant to the 2014 Restructuring and \$1.0 million of Old Notes (due June 15, 2022) held by other note holders who declined to participate in the 2012 Restructuring. The carrying value of notes will be accreted to face value using the effective interest rate method over the expected life of the notes with the resulting charge recorded as interest expense.

Results of Operations

Summary Results of Operations

Consolidated net loss for the three months ended March 31, 2015 was approximately \$3.7 million representing an increase of \$0.9 million from the comparable period in 2014.

	2015	2014	Change
Other Income (Loss)	\$ 16,602	\$ (5,632)	\$ 22,234
Total Expenses	(3,728,933)	(2,807,981)	(920,952)
Net Loss	\$ (3,712,331)	\$(2,813,613)	\$ (898,718)

Other Income

The Company has no commercial production at this time and, as a result, other income is typically variable from period to period. The change in other income was primarily due to an increase in foreign exchange gain.

	2015	2014	Change
Interest	\$ 2	\$ 116	\$ (114)
Foreign currency gain (loss)	16,600	(5,748)	22,348
	\$ 16,602	\$ (5,632)	\$ 22,234

Expenses

Corporate general and administrative, exploration and legal and accounting expenses for the three months ended March 31, 2015 decreased by approximately \$0.1 million from the comparable period in 2014. General and administrative expense increased primarily as a result of increases in non-cash charges associated with the granting of stock options and other costs. Exploration expenses decreased due to the termination of activity on the Tortuga project in 2014. The decrease in legal and accounting expense is primarily attributable to a decrease in fees incurred for corporate and tax planning activities.

Pursuant to generally accepted accounting principles, the Company records a non-cash expense associated with the issuance of options using the fair value method of accounting which is computed using the Black-Scholes method and expensed over the vesting period of the option. Accounting rules do not provide for the recovery of previously expensed amounts associated with expired share purchase options. The Company recorded non-cash compensation expense during the three months ended March 31, 2015 and 2014 of approximately \$60,000 and Nil, respectively, for stock-based grants made in 2015 and prior periods.

Expenses associated with the enforcement of the Arbitral Award, equipment holding costs, Venezuelan operations and interest for the three months ended March 31, 2015 increased from the comparable period in 2014 by approximately \$1.0 million. The increase in interest expense was due to the 2014 extension of the maturity date of the notes and an increase in the interest paid thereon from 5.5% to 11%, and the issuance of additional notes at 11%. The increase in arbitration was due to costs associated with the enforcement and collection of the Arbitral Award.

Overall, total expenses for the three months ended March 31, 2015 increased by approximately \$0.9 million from the comparable period in 2014

	2015	2014	Change
Corporate general and administrative	\$ 736,192	\$ 600,581	\$ 135,611
Exploration	58,172	267,469	(209,297)
Legal and accounting	91,739	142,227	(50,488)
	886,103	1,010,277	(124,174)
Venezuelan operations	28,615	28,621	(6)
Arbitration	435,609	9,668	425,941
Equipment holding costs	198,239	217,154	(18,915)
Interest expense	2,180,367	1,542,261	638,106
	2,842,830	1,797,704	1,045,126
Total Expenses for the Period	\$ 3,728,933	\$ 2,807,981	\$ 920,952

SUMMARY OF QUARTERLY RESULTS

Quarter ended	3/31/15	12/31/14	9/30/14	6/30/14	3/31/14	12/31/13	9/30/13	6/30/13
Other Income (loss)	\$16,602	\$(7,099,515)	\$(3,967)	\$(162,556)	\$(5,632)	\$(104,405)	\$(78,304)	\$(23,123)
Net loss								
before tax	(3,712,331)	(10,616,891)	(7,102,929)	(4,347,337)	(2,813,613)	(4,273,836)	(3,835,911)	(4,119,566)
Per share	(0.05)	(0.14)	(0.09)	(0.06)	(0.04)	(0.06)	(0.05)	(0.06)
Fully diluted	(0.05)	(0.14)	(0.09)	(0.06)	(0.04)	(0.06)	(0.05)	(0.06)
Net loss	(3,712,331)	(10,616,891)	(7,102,929)	(4,347,337)	(2,813,613)	(4,273,836)	(3,835,911)	(4,119,566)
Per share	(0.05)	(0.14)	(0.09)	(0.06)	(0.04)	(0.06)	(0.05)	(0.06)
Fully diluted	(0.05)	(0.14)	(0.09)	(0.06)	(0.04)	(0.06)	(0.05)	(0.06)

Other income in the first quarter of 2015 was primarily due to foreign exchange gain. Other income (loss) in the fourth quarter of 2014 was primarily due to write down of property and equipment and loss on impairment of marketable securities. In the second quarter of 2014 the loss was related to loss on debt restructuring due to the remaining unamortized discount on convertible notes prior to the restructuring. Other income (loss) during 2013 and the first and third quarters of 2014 consisted of foreign currency gains (losses), losses on marketable securities and interest income.

Net loss increased in the fourth quarter of 2014 due to a write-down of property and equipment. In the third quarter of 2014 the loss increase was related to \$3.4 million in legal fees due as a result of the Award (including \$2.9 million remaining unpaid as of March 31, 2015). The increase in net loss during the second quarter of 2014 was primarily due to the restructuring of convertible notes and the write-off of mineral property. The decrease in net loss during the first quarter of 2014 was primarily due to decreases in arbitration expense and non-cash compensation expense. The increase in net loss in the fourth quarter of 2013 was related to costs associated with the arbitration oral hearing. Net loss in the third quarter of 2013 decreased mainly as a result of a decrease in non-cash compensation.

Off-Balance Sheet Arrangements

The Company is not a party to any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on the Company's financial condition, changes in financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources.

Chief Executive Officer's Certification of Interim Filings**Form 52-109F2****Certification of interim filings – full certificate**

I, Rockne J. Timm, Chief Executive Officer of Gold Reserve Inc., certify the following:

1. I have reviewed the interim financial report and interim MD&A (together, the “interim filings”) of Gold Reserve Inc. (the “issuer”) for the interim period ended March 31, 2015.
2. Based on my knowledge, having exercised reasonable diligence, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings.
3. Based on my knowledge, having exercised reasonable diligence, the interim financial report together with the other financial information included in the interim filings fairly present in all material respects the financial condition, financial performance and cash flows of the issuer, as of the date of and for the periods presented in the interim filings.
4. The issuer's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as those terms are defined in National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*, for the issuer.
5. Subject to the limitations, if any, described in paragraphs 5.2 and 5.3, the issuer's other certifying officer and I have, as at the end of the period covered by the interim filings
 - (a) designed DC&P, or caused it to be designed under our supervision, to provide reasonable assurance that
 - (i) material information relating to the issuer is made known to us by others, particularly during the period in which the interim filings are being prepared; and
 - (ii) information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
 - (b) designed ICFR, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP.
- 5.1 The control framework the issuer's other certifying officer and I used to design the issuer's ICFR is the Committee of Sponsoring Organizations of the Treadway Commission (COSO) framework.
- 5.2 N/A
- 5.3 N/A
6. The issuer has disclosed in its interim MD&A any change in the issuer's ICFR that occurred during the period beginning on January 1, 2015 and ended on March 31, 2015 that has materially affected, or is reasonably likely to materially affect, the issuer's ICFR.
