

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 6-K

REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13A-16 OR 15D-16 OF THE SECURITIES EXCHANGE ACT OF 1934
For the month of November 2018

Commission File Number: 001-31819

Gold Reserve Inc.

(Exact name of registrant as specified in its charter)

999 W. Riverside Avenue, Suite 401

Spokane, Washington 99201

(Address of principal executive office)

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by
Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by
Regulation S-T Rule 101(b)(7):

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the
Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):

This Report on Form 6-K and the exhibits attached hereto are hereby incorporated by reference into Gold Reserve Inc.'s (the "Company") current Registration Statements on Form F-3 on file with the U.S. Securities and Exchange Commission (the "SEC").

The following exhibits are furnished with this Form 6-K:

99.1 September 30, 2018 Interim Consolidated Financial Statements

99.2 September 30, 2018 Management's Discussion and Analysis

99.3 Chief Executive Officer's Certification of Interim Filings

99.4 Chief Financial Officer's Certification of Interim Filings

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS AND INFORMATION

The information presented or incorporated by reference in this report contains both historical information and "forward-looking statements" (within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act) or "forward-looking information" (within the meaning of applicable Canadian securities laws) (collectively referred to herein as "forward-looking statements") that may state our intentions, hopes, beliefs, expectations or predictions for the future.

Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by us at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies that may cause our actual financial results, performance or achievements to be materially different from those expressed or implied herein and many of which are outside our control.

Forward-looking statements involve risks and uncertainties, as well as assumptions, including those set out herein, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause our results to differ materially from those expressed or implied by such forward-looking statements. The words "believe," "anticipate," "expect," "intend," "estimate," "plan," "may," "could" and other similar expressions that are predictions of or indicate future events and future trends, which do not relate to historical matters, identify forward-looking statements. Any such forward-looking statements are not intended to provide any assurances as to future results.

Numerous factors could cause actual results to differ materially from those described in the forward-looking statements, including, without limitation:

- the risk that the conclusions of management and its qualified consultants contained in the most recent Preliminary Economic Assessment of the Siembra Minera Gold Copper Project (the "Project") in accordance with National Instrument 43-101 Standards of Disclosure for Mineral Projects may not be realized in the future;
 - delay or failure by the Bolivarian Republic of Venezuela ("Venezuela") to make payments or otherwise honor its commitments under the Settlement Agreement, including with respect to the payment of the Award;
 - the risk that Venezuela may not transfer the funds already deposited to the trust account for the benefit of the Company at Banco de Desarrollo Económico y Social de Venezuela ("Bandes Bank") (the "Trust Account"), a Venezuelan state-owned development bank, to our U.S. or Canadian bank accounts;
 - the risk that the Venezuelan government bonds received by the Company in payment of certain monthly installments due under the Settlement Agreement may not be able to be sold in a timely manner at their current market value or at all;
 - the risk of currently existing or the imposition of additional future sanctions by the U.S., Canada or other jurisdictions that may negatively impact our ability to freely transfer funds from Venezuela and/or our ability to do business in Venezuela;
 - the ability of the Company and Venezuela to (i) successfully overcome any legal, regulatory or technical obstacles to operate Siembra Minera and develop and later operate the Siembra Minera Project, (ii) obtain any remaining governmental approvals and (iii) obtain, subject to Sanctions, financing to fund the capital and initial operating costs of the Siembra Minera Project;
-

- the risk the activities planned to be undertaken pursuant to the Permit to Effect and the social programs planned to be undertaken associated with the Siembra Minera Project area may not proceed as anticipated;
- risks associated with exploration, delineation of adequate resources and reserves, regulatory and permitting obstacles and other risks incident to the exploration, development and operation of mining properties in Venezuela and generally for mining projects including our ability to achieve revenue producing operations in the future;
- local risks associated with the concentration of our future operations and assets in Venezuela, including operational, security, legal, regulatory, political and economic risks;
- our ability to resume our efforts to enforce and collect the Award, including the associated costs of such enforcement and collection effort and the timing and success of that effort, if Venezuela fails to make payments under the Settlement Agreement, it is terminated and further efforts to meet the commitments in the Settlement Agreement are abandoned;
- pending the receipt of payments under the Settlement Agreement to our U.S. or Canadian bank accounts, our continued ability to service our obligations as they come due and access future additional funding, when required, for ongoing liquidity and capital resources, including as a result of payments of certain of those funds that must be made to our shareholders, Bonus Plan participants and holders of CVRs;
- potential shareholder dilution resulting from future financings;
- our prospects in general for the identification, exploration and development of additional mining projects;
- risks associated with the abilities and continued participation of key employees; and
- changes in U.S., Canadian and/or other tax laws to which we are subject.

See "Risk Factors" contained in our Annual Information Form and Annual Report on Form 40-F filed on www.sedar.com and www.sec.gov, respectively for additional risk factors that could cause results to differ materially from forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in our affairs since the date of this report that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with the U.S. Securities and Exchange Commission (the "SEC") or other securities regulators or presented on the Company's website. Forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this notice. We disclaim any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to our disclosure obligations under applicable U.S. and Canadian securities regulations. Investors are urged to read the Company's filings with U.S. and Canadian securities regulatory agencies, which can be viewed online at www.sec.gov and www.sedar.com, respectively.

The terms "mineral resource," "measured mineral resource," "indicated mineral resource" and "inferred mineral resource" are defined in and required to be disclosed by NI 43-101. However, these terms are not defined terms under SEC Industry Guide 7 and normally are not permitted to be used in reports and registration statements filed with the SEC. Investors are cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted into reserves. "Inferred mineral resources" have a great amount of uncertainty as to their existence, and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases, and such estimates are not part of the SEC Industry Guide 7.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

The accompanying notes are an integral part of the interim consolidated financial statements.

GOLD RESERVE INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Note 1. The Company and Significant Accounting Policies:

Gold Reserve Inc. ("Gold Reserve", the "Company", "we", "us", or "our") is engaged in the business of acquiring, exploring and developing mining projects and was incorporated in 1998 under the laws of the Yukon Territory, Canada and continued to Alberta, Canada in September 2014.

Gold Reserve Inc. is the successor issuer to Gold Reserve Corporation which was incorporated in 1956. A significant portion of our recent activities relate to the advancement of the Siembra Minera Project and the execution of the July 2016 settlement agreement, (as amended, the "Settlement Agreement") with the Bolivarian Republic of Venezuela ("Venezuela") in regards to the payment of the Award and the acquisition of our Mining Data by Venezuela (See Note 3, Arbitral Award and Mining Data Sale Settlement Agreement and Note 7, Empresa Mixta Ecosocialista Siembra Minera, S.A. ("Siembra Minera")).

Basis of Presentation and Principles of Consolidation. These interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). The statements principally include the accounts of the Company, Gold Reserve Corporation and three Barbadian subsidiaries formed to hold our equity interest in Siembra Minera which is beneficially owned 55% by Venezuela and 45% by Gold Reserve. Our investment in Siembra Minera is accounted for as an equity investment. All other subsidiaries are wholly owned. All intercompany accounts and transactions have been eliminated on consolidation. Our policy is to consolidate those subsidiaries where control exists. We have only one operating segment, the exploration and development of mineral properties. As these unaudited interim consolidated financial statements do not contain all of the disclosures required by U.S. GAAP for annual financial statements, they should be read in conjunction with the annual financial statements and related notes included in our Annual Report on Form 40-F for the year ended December 31, 2017.

Cash and Cash Equivalents. We consider short-term, highly liquid investments purchased with an original maturity of three months or less to be cash equivalents for purposes of reporting cash equivalents and cash flows. The cost of these investments approximates fair value. We manage the exposure of our cash and cash equivalents to credit risk by diversifying our holdings into various major financial institutions.

Exploration and Development Costs. Exploration costs incurred in locating areas of potential mineralization or evaluating properties or working interests with specific areas of potential mineralization are expensed as incurred. Development costs of proven mining properties not yet producing are capitalized at cost and classified as capitalized exploration costs under property, plant and equipment. Mineral property holding costs are charged to operations during the period if no significant exploration or development activities are being conducted on the related properties. Upon commencement of production, capitalized exploration and development costs would be amortized based on the estimated proven and probable reserves benefited. Mineral properties determined to be impaired or that are abandoned are written-down to the estimated fair value. Carrying values do not necessarily reflect present or future values.

Property, Plant and Equipment. Included in property, plant and equipment is certain equipment, the carrying value of which has been adjusted, as a result of impairment tests, to its estimated fair value of \$11.7 million and which is not being depreciated as it is not yet available for its intended use. The ultimate recoverable value of this equipment may be different than management's current estimate. We have additional property, plant and equipment which are recorded at cost less impairment charges and accumulated depreciation. Replacement costs and major improvements are capitalized. Maintenance and repairs are charged to expense as incurred. The cost and accumulated depreciation of assets retired or sold are removed from the accounts and any resulting gain or loss is reflected in operations. Furniture, office equipment and leasehold improvements are depreciated using the straight-line method over 5 to 10 years. The remaining property, plant and equipment are fully depreciated.

GOLD RESERVE INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Impairment of Long Lived Assets. We review long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If the sum of the expected future net cash flows to be generated from the use or eventual disposition of a long-lived asset (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment loss is recognized based on a determination of the asset's fair value. Fair value is generally determined by discounting estimated cash flows based on market participant expectations of those future cash flows, or applying a market approach that uses market prices and other relevant information generated by market transactions involving comparable assets.

Foreign Currency. The U.S. dollar is our (and our foreign subsidiaries') functional currency. Monetary assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the rates of exchange in effect at the balance sheet dates. Non-monetary assets and liabilities are translated at historical rates and revenue and expense items are translated at average exchange rates during the reporting period, except for depreciation which is translated at historical rates. Translation gains and losses are included in the statement of operations.

Stock Based Compensation. We maintain an equity incentive plan which provides for the grant of stock options to purchase our Class A common shares. We use the fair value method of accounting for stock options. The fair value of options granted to employees is computed using the Black-Scholes method as described in Note 9 and is expensed over the vesting period of the option. For non-employees, the fair value of stock based compensation is recorded as an expense over the vesting period or upon completion of performance. Consideration paid for shares on exercise of share options, in addition to the fair value attributable to stock options granted, is credited to capital stock. Stock options granted under the plan become fully vested and exercisable upon a change of control.

Income Taxes. We use the liability method of accounting for income taxes. Deferred tax assets and liabilities are determined based on the differences between the tax basis of assets and liabilities and those amounts reported in the financial statements. The deferred tax assets or liabilities are calculated using the enacted tax rates expected to apply in the periods in which the differences are expected to be settled. Deferred tax assets are recognized to the extent that they are considered more likely than not to be realized.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Income (Loss) Per Share. Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average number of Class A common shares outstanding during each period. Diluted net income per share reflects the potentially dilutive effects of outstanding stock options and convertible notes. In periods in which a loss is incurred, the effect of potential issuances of shares under stock options and convertible notes would be anti-dilutive, and therefore basic and diluted losses per share are the same in those periods.

Convertible Notes. Convertible notes are initially recorded at estimated fair value and subsequently measured at amortized cost. The fair value is allocated between the equity and debt component parts based on their respective fair values at the time of issuance and recorded net of transaction costs. The equity portion of the convertible notes is estimated using the residual value method. The fair value of the debt component is accreted to the face value of the convertible notes using the effective interest rate method over the contractual life of the convertible notes, with the resulting charge recorded as interest expense.

Investments. We determine the appropriate classification of investments in equity securities at acquisition and reevaluate such classifications at each reporting date. Investments in incorporated entities in which the Company has the ability to exercise significant influence over the investee are accounted for by the equity method.

Financial Instruments. Gains or losses on marketable securities are recorded in the statement of operations. If a decline in fair value of a security is determined to be other than temporary, an impairment loss is recognized. Cash and cash equivalents, deposits, advances and receivables are accounted for at cost which approximates fair value. Accounts payable, convertible notes, interest notes and contingent value rights are recorded at amortized cost. Amortized cost of accounts payable approximates fair value.

Note 2. New Accounting Policies:

Adopted in the year

In January 2016, the FASB issued ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities. The amendments in this update address certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. This update was effective for us January 1, 2018. The updated guidance resulted in a reclassification of \$0.1 million of unrealized holding gains and losses related to investments in marketable equity securities from accumulated other comprehensive income to accumulated deficit in the Balance Sheet upon adoption. Changes in the value of the Company's marketable equity securities are now recorded as income (loss) instead of other comprehensive income (loss).

In January 2017, the FASB issued ASU 2017-01, Business Combinations. This update clarifies the definition of a business and adds guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. This update was effective for us January 1, 2018 and did not have an impact on our financial statements.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows – Restricted Cash. This update requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. This update was effective for us January 1, 2018 and did not have an impact on our financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows – Classification of Certain Cash Receipts and Cash Payments. This update is intended to reduce the existing diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. This update was effective for us January 1, 2018 and did not have an impact on our financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from contracts with customers. This standard contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. This update was effective for us January 1, 2018 and did not have an impact on our financial statements.

Recently issued accounting pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases. This update is intended to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. This update is effective for us commencing with the annual period beginning after December 15, 2018, including interim periods within that year. We are still in the process of evaluating the impact of this standard.

Note 3. Arbitral Award and Mining Data Sale Settlement Agreement:

In October 2009 we initiated the Brisas Arbitration to obtain compensation for the losses caused by the actions of Venezuela that terminated our Brisas Project. September 22, 2014, we were granted an Arbitral Award (the "Award") totaling \$740.3 million. In July 2016, we signed the Settlement Agreement, subsequently amended, whereby Venezuela agreed to pay us \$792 million to satisfy the Award (including interest) and \$240 million for the purchase of our mining data related to the Brisas Project (the "Mining Data"). Pursuant to the Settlement Agreement, Venezuela agreed to make a payment of \$40 million (the "Initial Payment") followed by 23 monthly payments of \$29.5 million on or before the 15th day of each month starting in July 2017, with a final payment of approximately \$313.3 million scheduled to be paid on or before June 15, 2019. The first \$240 million received by Gold Reserve from Venezuela has been recognized as proceeds from the sale of the Mining Data.

GOLD RESERVE INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

As of the date of this report, Venezuela had deposited approximately \$187.5 million to a Trust Account (See Note 4, Cash and Cash Equivalents). Of this amount, approximately \$165.2 million had been transferred to the Company's bank account outside of Venezuela with a balance, at the date of this report, of approximately \$22.3 million remaining in the Trust Account. Approximately \$37.1 million remained in the Trust Account at September 30, 2018. In addition, in August 2018 the Company received Venezuelan government bonds, which are exempt from U.S. Sanctions pursuant to Department of Treasury General License No. 3 issued by the Office of Foreign Asset Control ("OFAC"), with a market value, at the time of the agreement, of approximately \$88.5 million as payment of the December 2017 and January and February 2018 monthly installments due under the Settlement Agreement. The amount associated with the bonds was originally recorded as a receivable in the June 30, 2018 financial statements. On a cumulative basis, Venezuela has paid the Company approximately \$276 million, including the amounts remaining in the Trust. The monthly payments pursuant to the Settlement Agreement from March through November 2018 totaling approximately \$265.5 million remain unpaid.

We have Contingent Value Rights ("CVRs") outstanding that entitle the holders to an aggregate of 5.466% of proceeds associated with the collection of the Award, sale of Mining Data or an enterprise sale (the "Proceeds"), less amounts for certain specified obligations, as well as a bonus plan as described below. Due to U.S. and Canadian Sanctions (See Note 4, Cash and Cash Equivalents) and the uncertainty of transferring the cash held in the Trust Account to bank accounts outside of Venezuela, management only considers those funds received by the Company into its North American bank account as funds available for purposes of calculating the CVR and Bonus Plan cash distributions. However, the full amount due based on total payments received has been recognized as an accrual in these financial statements.

The total estimated amount due pursuant to the terms of the CVRs as of September 30, 2018, (including those amounts remaining in the Trust Account and the receivable associated with the Venezuelan bonds) from the sale of the Mining Data and the arbitration award was approximately \$5.6 million. The amount distributed during the nine months ended September 30, 2018 based on the amounts transferred to our North American bank account was approximately \$1.9 million.

We maintain a bonus plan (the "Bonus Plan") which is intended to compensate the participants, including executive officers, employees, directors and consultants for their past and present contributions to the Company. The bonus pool under the Bonus Plan, as originally structured, was comprised of the gross proceeds collected or the fair value of any consideration realized related to such transactions less applicable taxes multiplied by 1% of the first \$200 million and 5% thereafter. In June 2018, the Board modified the Bonus Plan to increase the percentage participation of certain individuals who in the Board's opinion were not adequately recognized for their current contribution to efforts associated with the conclusion of the Settlement Agreement and the collection of the amounts contemplated thereunder. The effect of the Board's modification to the Bonus Plan was to increase the after tax percentage allocation for the first \$200 million up to a maximum of 1.28% and the percentage allocation thereafter up to a maximum of 6.4%. The total estimated amount due pursuant to the terms of the Bonus Plan as of September 30, 2018 (including those amounts remaining in the Trust Account and the receivable associated with the Venezuelan bonds) from the sale of the Mining Data and the arbitration award is approximately \$2.2 million. The amount of distributed during the nine months ended September 30, 2018 based on the amounts transferred to our North American bank account was approximately \$0.7 million.

Following receipt of funds transferred pursuant to the Settlement Agreement to our North American bank account and after applicable payments to CVR holders and Bonus Plan participants, we expect to distribute to our shareholders a substantial majority of any remaining amounts, subject to applicable regulatory requirements and retaining sufficient reserves for operating expenses, contractual obligations, accounts payable and income taxes, and any obligations arising as a result of the collection of the Award and/or sale of the Mining Data.

GOLD RESERVE INC.

(Expressed in U.S. dollars)

Note 4. Cash and Cash Equivalents:

	September 30, 2018	December 31, 2017
Bank deposits	\$ 48,612,925	\$ 39,649,888
Cash held in trust	37,057,850	88,500,000
Money market funds	26,403,050	9,522,830
Total	<u>\$ 112,073,825</u>	<u>\$ 137,672,718</u>

Payments made by Venezuela associated with the Settlement Agreement (excluding the recent transfer of Venezuelan bonds) have generally been deposited into a trust account for the benefit of the Company at Banco de Desarrollo Económico y Social de Venezuela ("Bandes Bank") (the "Trust Account"), a Venezuelan state-owned development bank. Under the trust agreement, the Company can transfer the funds to its bank account outside of Venezuela. Cash held in the Trust Account as of September 30, 2018 is classified as cash and cash equivalents. Cash deposited to the Trust Account and marketable debt securities transferred, subsequent to the balance sheet date but prior to the date of issuance of the consolidated financial statements are recognized as receivables as they represent amounts due from the sale of the Mining Data or the Arbitration Award as of the balance sheet date, for which collectability is certain.

In August 2017, the U.S. government imposed financial sanctions (as defined herein "Sanctions") targeting Venezuela by issuing an Executive Order ("EO") that prohibits U.S. persons from dealing in financing of greater than 30 days for Venezuela, including any entity owned or controlled by Venezuela (with respect to the state oil company and its subsidiaries, these restrictions prohibit financings of greater than 90 days). In addition, U.S. persons are prohibited from dealing in, among other things, bonds (unless otherwise exempt from U.S. Sanctions pursuant to General License No. 3 issued by the Department of the Treasury's Office of Foreign Asset Control ("OFAC")) or equity issued by Venezuela after the U.S. financial Sanctions were imposed on August 25, 2017.

These U.S. financial Sanctions have built on Sanctions imposed by the U.S. government starting in March 2015 that designated Venezuelan officials as "Specially Designated Nationals" ("SDNs"), which prohibits them from traveling to the U.S., freezes any assets they may have in the U.S. and generally prohibits U.S. persons from doing business with them and any entity they own 50% or more. Since August 2017, the U.S. government has designated several additional individuals as SDNs and has prohibited U.S. persons from dealing in cryptocurrencies issued by Venezuela. On September 22, 2017 and again on May 30, 2018, Canada imposed its own Sanctions requiring asset freezes and imposing prohibitions on dealings with named Venezuelan officials.

On May 21, 2018, the U.S. government issued an EO that prohibits U.S. persons from engaging in transactions relating to: (i) the purchase of any debt owed to Venezuela, including accounts receivable, (ii) any debt owed to Venezuela that is pledged as collateral after May 21, 2018, including accounts receivable, and (iii) the sale, transfer, assignment, or pledging as collateral by Venezuela of any equity interest in any entity in which Venezuela has a 50 percent or greater ownership interest.

Finally, on November 1, 2018, the U.S. government issued an EO authorizing Sanctions against any person determined to: (i) "operate in the gold sector of the Venezuelan economy" or any other sector deemed sanctionable by the U.S. government, (ii) be responsible for transactions involving deceptive practices or corruption involving Venezuela or (iii) have supported deceptive or corrupt transactions or to be owned or controlled by a person meeting the foregoing criteria. OFAC issued guidance that it "expects to use its discretion to target in particular those who operate corruptly in the gold or other identified sectors of the Venezuela economy, and not those who are operating legitimately in such sectors."

The US and Canadian Sanctions listed above do not currently prohibit our ability to receive monthly transfers of funds from Venezuela. However, in addition to affecting the political, economic and financial condition of Venezuela, Sanctions have complicated the monthly transfer of funds from Venezuela to our North American bank account. Further, although the issuance of the November 1, 2018 EO does not directly affect our operations in or involving Venezuela, it could complicate our activities involving non-SDN Venezuelan officials or other persons related to the Venezuelan gold sector if they were to be targeted under the Sanctions in the future.

(Expressed in U.S. dollars)

Note 5. Marketable Securities:

	September 30, 2018	December 31, 2017
<u>Equity securities</u>		
Fair value at beginning of year	\$ 239,232	\$ 541,216
Decrease in fair value	(17,045)	(301,984)
Fair value at balance sheet date	<u>\$ 222,187</u>	<u>\$ 239,232</u>
<u>Debt securities</u>		
Fair value at beginning of year	\$ —	\$ —
Acquisitions	88,500,000	—
Dispositions	(24,500)	—
Realized loss	(3,945)	—
Decrease in fair value	(3,343,465)	—
Fair value at balance sheet date	<u>\$ 85,128,090</u>	<u>\$ —</u>

The Company's marketable securities are recorded at quoted market value with gains and losses recorded in the Consolidated Statements of Operations. Gains and losses on securities sold are based on the average cost of the shares held at the date of disposition. As of September 30, 2018 and December 31, 2017, marketable equity securities had a cost basis of \$98,043. Marketable debt securities had a cost basis of \$88,471,555 as of September 30, 2018.

Accounting Standards Codification ("ASC") 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels: Level 1 inputs are quoted prices in active markets for identical assets or liabilities, Level 2 inputs are inputs other than quoted prices included within Level 1 that are directly or indirectly observable for the asset or liability and Level 3 inputs are unobservable inputs for the asset or liability that reflect the entity's own assumptions. The fair values of the Company's marketable equity securities are based on Level 1 inputs. The fair values of the Company's marketable debt securities, which consist of Venezuelan government bonds, are based on Level 2 inputs using a market based approach using quoted prices in markets which have limited trading activity. These securities are also subject to credit risk due to the political and economic conditions in Venezuela.

Note 6. Property, Plant and Equipment:

	Cost	Accumulated Depreciation	Net

Mineral property	350,000	—	350,000
	\$ 13,143,405	\$ (510,871)	\$ 12,632,534

Machinery and equipment consists of infrastructure and milling equipment intended for use on the Brisas Project. We continually evaluate our equipment to determine whether events or changes in circumstances have occurred that may indicate impairment has occurred. We review comparable market data for evidence that fair value less cost to sell is in excess of the carrying amount. We recorded impairment write-downs of property, plant and equipment of \$14,000 and NIL during the nine months ended September 30, 2018 and 2017. During 2017, the Company purchased approximately \$0.5 million of transportation equipment for use in the development of the Siembra Minera project.

Note 7. Empresa Mixta Ecosocialista Siembra Minera, S.A.:

In October 2016, together with an affiliate of the government of Venezuela, we established Empresa Mixta Ecosocialista Siembra Minera, S.A. ("Siembra Minera"). The primary purpose of this entity is to develop the Siembra Minera Project.

Siembra Minera is beneficially owned 55% by Corporacion Venezolana de Minería, S.A., a Venezuelan government corporation, and 45% by Gold Reserve. Siembra Minera (pursuant to the agreement which governs the formation and operation of Siembra Minera) holds certain gold, copper, silver and other strategic mineral rights contained within Bolivar State comprising the Siembra Minera Project (which has a 20 year term with two 10 year extensions) and is, among other things authorized, via current or future Presidential Decrees and Ministerial resolutions, to carry on its business, pay a net smelter return royalty to Venezuela on the future sale of gold, copper, silver and any other strategic minerals over the life of the project and provide net profits participation based on the sales price of gold per ounce. Pursuant to the Settlement Agreement, both parties will retain their respective interest in Siembra Minera in the event all of the agreed upon settlement payments are not made by Venezuela.

On March 16, 2018, the Company announced the completion of a technical report for the Preliminary Economic Assessment for the Siembra Minera Project in accordance with National Instrument 43-101 Standards of Disclosure for Mineral Projects which included, among other information, resource estimates, pit design, mine plan, flowsheet design, design criteria, project layout, infrastructure requirements, capital and operating estimates. The Company has directly incurred the costs on the Siembra Minera Project, which through September 30, 2018 amounted to a total of approximately \$14.4 million. These expenditures primarily include costs associated with the completion of the PEA that included a number of engineering, environmental and social third party advisors as well as costs associated with a number of social works programs in the vicinity of the Project, which are expensed as incurred and classified within "Siembra Minera Project Costs" in the Consolidated Statements of Operations.

Note 8. KSOP Plan:

The KSOP Plan, adopted in 1990 for retirement benefits of employees, is comprised of two parts, (1) a salary reduction component, and a 401(k) which includes provisions for discretionary contributions by us, and (2) an employee share ownership component, or ESOP. Allocation of Class A common shares or cash to participants' accounts, subject to certain limitations, is at the discretion of the Board. There have been no Class A common shares allocated to the KSOP Plan since 2011. Cash contributions for plan year 2017 were approximately \$234,000. As of September 30, 2018, no contributions by the Company had been made for plan year 2018.

GOLD RESERVE INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Note 9. Stock Based Compensation Plans:

Equity Incentive Plans

The Company's equity incentive plan provides for the grant of stock options to purchase up to a maximum of 8,750,000 of our Class A common shares. As of September 30, 2018, there were 2,072,000 options available for grant. Grants are made for terms of up to ten years with vesting periods as required by the TSXV and as may be determined by a committee of the Board established pursuant to the equity incentive plan.

Stock option transactions for the nine months ended September 30, 2018 and 2017 are as follows:

	2018		2017	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Options outstanding - beginning of period	5,091,565	\$ 3.13	3,357,000	\$ 2.84
Options granted	-	-	5,277,500	3.15
Options exercised	-	-	(2,060,435)	2.88
Options expired	(487,000)	3.34	(1,469,500)	2.89
Options outstanding - end of period	4,604,565	\$ 3.11	5,104,565	\$ 3.13
Options exercisable - end of period	4,060,818	\$ 3.10	3,985,817	\$ 3.14

The following table relates to stock options at September 30, 2018:

Outstanding Options					Exercisable Options			
Exercise Price	Number	Weighted Average Exercise Price	Aggregate Intrinsic Value	Weighted Average Remaining Contractual Term (Years)	Number	Weighted Average Exercise Price	Aggregate Intrinsic Value	Weighted Average Remaining Contractual Term (Years)
\$1.92	444,922	\$1.92	\$ 235,809	2.69	444,922	\$1.92	\$ 235,809	2.69
\$2.69	125,000	\$2.69	-	8.58	93,750	\$2.69	-	8.58
\$3.15	3,544,643	\$3.15	-	8.38	3,032,146	\$3.15	-	8.38
\$3.91	180,000	\$3.91	-	6.74	180,000	\$3.91	-	6.74
\$4.02	310,000	\$4.02	-	5.82	310,000	\$4.02	-	5.82
\$1.92 - \$4.02	4,604,565	\$3.11	\$ 235,809	7.60	4,060,818	\$3.10	\$ 235,809	7.49

During the nine months ended September 30, 2018 and 2017, the Company granted NIL and 5.3 million stock options, respectively. During the nine months ended September 30, 2017, approximately 2.1 million outstanding options were exercised for net proceeds to the Company of \$5.9 million. The Company recorded non-cash compensation expense during the nine months ended September 30, 2018 and 2017 of \$0.3 million and \$4.9 million, respectively for stock options granted in 2017 and prior periods.

The weighted average fair value of the options granted in the first nine months of 2017 was calculated at \$1.04. The fair value of options granted was determined using the Black-Scholes model based on the following weighted average assumptions:

	2017
Risk free interest rate	1.22%
Expected term	2 years
Expected volatility	59%
Dividend yield	nil

The risk free interest rate is based on the US Treasury rate on the date of grant for a period equal to the expected term of the option. The expected term is based on historical exercise experience and projected post-vesting behavior. The expected volatility is based on historical volatility of the Company's stock over a period equal to the expected term of the option.

GOLD RESERVE INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

Retention Plan and Change of Control Agreements

The Company maintains the Gold Reserve Director and Employee Retention Plan. Each unit (a "Retention Unit") granted to a participant entitles such person to receive a cash payment equal to the fair market value of one Gold Reserve Class A common share on the date the Retention Unit is granted or on the date any such participant becomes entitled to payment, whichever is greater. Units previously granted under the plan became fully vested upon the collection of proceeds from sale of the Mining Data and the Board of Director's agreement to distribute a substantial majority of the remaining proceeds to our shareholders. In June 2017, as a result of the collection of proceeds related to the sale of the Mining Data, the Retention Units vested and in the third quarter of 2017 the Company paid \$7.7 million to plan participants. As of September 30, 2018 there were no Retention Units outstanding.

The Company also maintains change of control agreements with certain officers and employees. A Change of Control is generally defined as one or more of the following: the acquisition by any individual, entity or group, of beneficial ownership of the Company of 25 percent of the voting power of the outstanding Common Shares; a change in the composition of the Board that causes less than a majority of the current directors of the Board to be members of the incoming board; reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company; liquidation or dissolution of the Company; or any other event the Board reasonably determines constitutes a Change of Control. As of September 30, 2018, in the event of a change of control, the amount payable under these agreements was approximately \$15.4 million. None of this amount has currently been recognized as a change of control is not considered probable at this time.

Note 10. Convertible Notes and Interest Notes:

In the third quarter of 2017, the Company settled all of its outstanding 11% Senior Secured Convertible Notes and Interest Notes due December 31, 2018 (the "2018 Notes"). Prior to settlement, the Company had a total of \$59.1 million face value of 2018 Notes outstanding. Of these notes, \$36.3 million were redeemed for cash and the Company paid an additional \$6.4 million related to a 20% premium due on the redeemed notes and \$0.2 million in interest to the redemption date. The remaining \$22.8 million 2018 Notes were converted to approximately 7.6 million Class A common shares. As a result of the redemption or conversion of 2018 Notes, the Company recorded a \$16.6 million loss on settlement of debt consisting of the \$6.4 million premium paid and approximately \$10.2 million of remaining unamortized discount. In October 2017, the Company redeemed for cash its remaining debt, which consisted of approximately \$1.0 million face value of 5.5% Senior Subordinated Convertible Notes due June 15, 2022 (the "2022 Convertible Notes").

Note 11. Income Tax:

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act") which made broad and complex changes to the U.S. tax code. The Tax Act established new tax laws including, but not limited to, a reduction of the U.S. federal corporate tax rate from 35% to 21% beginning in 2018.

Income tax expense for the nine months ended September 30, 2018 and 2017 differs from the amount that would result from applying Canadian tax rates to net income before taxes. These differences result from the items noted below:

	2018		2017	
	Amount	%	Amount	%
Income tax expense based on Canadian tax rates	\$ 16,994,571	25	\$ 32,129,949	25
Increase (decrease) due to:				
Different tax rates on foreign subsidiaries	(1,813,647)	(2)	17,175,972	13
Non-deductible expenses	908,032	1	2,340,551	2
Withholding tax	759,062	1	2,000,265	2
Previously unrecognized tax benefits	(11,508,151)	(17)	-	-
Change in valuation allowance and other	(5,141,651)	(8)	(6,938,974)	(6)
	\$ 198,216	-	\$ 46,707,763	36

GOLD RESERVE INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in U.S. dollars)

The Company recorded income tax expense of \$0.2 million and \$46.7 million for the nine months ended September 30, 2018 and 2017, respectively. Income tax expense for the nine months ended September 30, 2018 decreased from the prior comparable period as a result of the deduction of capitalized costs incurred in the development of the Mining Data and a change in the valuation allowance due to the utilization of Canadian tax loss carryforwards. The tax benefit of the capitalized costs had not been recognized prior to the third quarter of 2018 when Venezuela completed all of the payments due under the agreement for sale of the Mining Data. We have recorded a valuation allowance to reflect the estimated amount of the deferred tax assets which may not be realized, principally due to the uncertainty of utilization of net operating losses and other carry forwards prior to expiration. The valuation allowance for deferred tax assets may be reduced in the near term if our estimate of future taxable income changes. The components of the Canadian and U.S. deferred income tax assets and liabilities as of September 30, 2018 and December 31, 2017 were as follows:

	September 30, 2018	December 31, 2017
Deferred income tax assets		
Net operating loss carry forwards	\$ 34,768,039	\$ 35,964,366
Property, Plant and Equipment	3,227,233	3,227,745
Other	2,873,810	1,682,594
	<u>40,869,082</u>	<u>40,874,705</u>
Valuation allowance	(35,305,365)	(40,662,538)
	<u>\$ 5,563,717</u>	<u>\$ 212,167</u>
Deferred income tax liabilities		
Cash held in trust	(5,124,118)	(18,585,000)
Other	(1,815,509)	(29,650)
Net deferred income tax liability	<u>\$ (1,375,910)</u>	<u>\$ (18,402,483)</u>

At September 30, 2018, we had the following Canadian tax loss carry forwards. Amounts are in U.S. dollars.

	Expires
\$ 2,022,389	2026
3,753,291	2027
14,305,833	2028

Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

This Management's Discussion and Analysis of Financial Condition and Results of Operations, dated November 20, 2018 is intended to assist in understanding and assessing our results of operations and financial condition and should be read in conjunction with the September 30, 2018 interim consolidated financial statements and related notes. All dollar amounts herein are expressed in U.S. Dollars.

RESTATEMENT OF JUNE 30, 2018 CONSOLIDATED FINANCIAL STATEMENTS

In connection with the preparation of the Company's unaudited interim consolidated financial statements for the three and nine months ended September 30, 2018, an error was identified in the income tax calculation for the three month period ended June 30, 2018, which impacted the Company's previously filed unaudited interim financial statements for the three and six month periods ended June 30, 2018. Income tax expense was overstated by \$6,566,898 due to the incorrect allocation of income to a taxing jurisdiction with differing tax rates and in which the Company had different tax loss carryforwards. The Company has restated its June 30, 2018 unaudited interim consolidated financial statements to correct this error. This error did not affect the September 30, 2018 unaudited interim consolidated financial statements.

Internal Control over Financial Reporting (ICFR) and Disclosure Controls and Procedures (DC&P)

In conjunction with the matter described above, the Company's management has determined it has a material weakness in the Company's ICFR and DC&P, and as such, its internal control over financial reporting as of September 30, 2018 was not effective. Management did not recognize that income should have been allocated to a different taxing jurisdiction which resulted in a material error in the calculation of tax expense for the period ended June 30, 2018. The control deficiency was concluded to be operational in nature. Management is in the process of remediating this control deficiency by the implementation of additional review and oversight procedures with respect to the preparation and review of the tax amounts included in the financial statements

EXPLORATION PROSPECTS

Siembra Minera

In August 2016, we executed an agreement with the Bolivarian Republic of Venezuela ("Venezuela") to form a jointly owned company and in October 2016, together with an affiliate of the government of Venezuela, we established Empresa Mixta Ecosocialista Siembra Minera, S.A. ("Siembra Minera"), the entity whose purpose is to develop the Siembra Minera Project. Siembra Minera holds certain gold, copper, silver and other strategic mineral rights within Bolivar State (having a term of 20 years with two 10 year extensions) which is comprised of approximately 18,950 hectares in an area located in the Km 88 gold mining district of southeast Bolivar State which includes the Brisas and Cristinas areas. The entity is beneficially owned 55% by Corporacion Venezolana de Minería, S.A., a Venezuelan government corporation and 45% by Gold Reserve and, in the event the settlement payments are not made by Venezuela, the parties will retain their respective interest in Siembra Minera. The Company has directly incurred all the costs to date on the Siembra Minera Project.

Pursuant to the agreement, Siembra Minera similar to other mixed companies operating in the area of the "Orinoco Mining Arc" (as defined in Presidential Decree No. 2.248) is expected to be issued tax and fiscal incentives that include exemption from value added tax, stamp tax, municipal taxes and any taxes arising from the contribution of tangible or intangible assets, if any, to the mixed companies by the parties and also provides for the cost of electricity, diesel and gasoline the same as that incurred by the government or related entities. The agreement also obligates Siembra Minera to pay a special advantage to the Venezuelan government of 3% of gross sales, a net smelter return royalty ("NSR") on the sale of gold, copper, silver and any other strategic minerals of 5% for the first ten years of commercial production and 6% for the next ten years and income tax upon the commencement of commercial production at a rate of 14% for years one to five, 19% for years 6 to 10, 24% for years 11 to 15, 29% for years 16 to 20 and 34% thereafter.

Siembra Minera is further authorized by the agreement to export and sell concentrate and doré containing gold, copper, silver and other strategic minerals outside of Venezuela and maintain foreign currency balances associated with future capital financings and sale of gold, copper and silver in offshore US dollar accounts, with dividends and profit distributions, if any, paid directly to the shareholders of Siembra Minera. In addition, funds required for Venezuela income taxes and annual operating and capital costs denominated in Bolívars for the Siembra Minera Project are expected to be converted into local currency at the most favorable exchange rate offered by Venezuela to other entities.

The parties agreed to participate in the future price of gold, in accordance with an agreed upon formula resulting in specified respective percentages based on the sales price of gold per ounce. For sales up to \$1,600 per ounce, net profits will be allocated 55% to Venezuela and 45% to Gold Reserve. For sales greater than \$1,600 per ounce, the incremental amount will be allocated 70% to Venezuela and 30% to us. For example, with sales at \$1,600 and \$3,500 per ounce, net profits will be allocated 55.0% and 45.0% and 60.5% and 39.5%, respectively. In addition, Gold Reserve, under a Technical Services Agreement, is expected to provide engineering, procurement and construction services to Siembra Minera for a fee of 5% over all costs of construction and development and, thereafter, for a fee of 5% over operating costs during operations. Siembra Minera is expected to undertake initiatives, subject to Sanctions, to secure financing(s) to fund the anticipated capital cost of a small cyanidation plant ("Small Plant") estimated at \$300 million as well as the large flotation plant, which is expected to cost in excess of \$2 billion.

PRELIMINARY ECONOMIC ASSESSMENT ("PEA")

On March 16, 2018, the results of a technical report for the PEA of the Siembra Minera Gold Copper Project, in accordance with National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101"), was announced. The technical report in connection with the PEA (the "Siembra Minera Technical Report") prepared by Roscoe Postle Associates, Inc. ("RPA"), Samuel Engineering Inc. ("Samuel Engineering"), Tierra Group International, Ltd ("Tierra Group"), and AATA International, Inc. ("AATA") is available to the public at www.sedar.com and www.sec.gov, as well as, the Company's website at www.goldreserveinc.com. The summary section of the March 16, 2018 PEA of the Siembra Minera Project Report prepared in compliance with NI 43-101 is included in the Company's 2017 annual information form.

SIEMBRA MINERA PROJECT COMPLETED ACTIVITIES

The Company continues a number of social programs to improve the health care in the Siembra Minera Project area including addressing the malaria problem with medicine and preventive measures and undertaking efforts to rehabilitate and/or upgrade various schools, sports courts, parks and health care facilities, located in the Project vicinity as well as generating engineering assessments for potential future upgrades to the local communities' water supply and sewage system infrastructure.

In addition, the Company published a PEA, as discussed above, completed preliminary design and cost estimates and related tailings dam facilities for the Small Plant, initiated activities associated with the preparation of a Venezuela Environment Impact Statement ("VEIS") and International Environmental and Social Impact Assessment ("IESIA"), collected a surface saprolite material sample for transport to the United States for metallurgical testing and obtained the permit to effect the environment for the Siembra Minera Project ("Permit to Effect") from the Venezuelan Ministry of the Environment for which Siembra Minera is awaiting the issuance of the Initiation Act authorizing it to proceed with work on the Project.

The Company has incurred costs associated with the work so far completed on the Siembra Minera Project, which through September 30, 2018 amounted to a total of approximately \$14.4 million. These expenditures primarily include costs associated with the completion of the PEA and its third-party contributors, noted above, and costs associated with a number of social works programs in the vicinity of the Project described above, which have been recorded in the Consolidated Statements of Operations.

SIEMBRA MINERA PROJECT DEVELOPMENT

With the previous issuance of the permit to effect the environment we have considered initial plans for various on-site activities such as site clearing, construction of a temporary camp and warehouse facilities, drilling of dewatering and development drill holes, access roads on the property, opening of the quarry for construction aggregates and initial construction activities. We have evaluated initial proposals for a drilling program in support of the overall project development activities, water management wells, and test areas where additional resource potential is evident. Various geotechnical studies as well as environmental and social studies to augment and update previous work on the property have been considered which could support the generation of a pre-feasibility study for the small and large plant and generate an International Environmental & Social Impact Assessment (IESIA) for the support of the various operating and environmental permits that will be required for the project. The next phase of the Project's development is envisioned to include detail design work for the small cyanidation plant and related facilities along with the metallurgical testing to support the metallurgical process used in the plant. The timing and extent of future development on the Project is subject to appropriate funding and subject to Sanctions. In addition, a number of social programs in the area (as described above) are expected to continue.

BRISAS ARBITRAL AWARD AND MINING DATA SALE SETTLEMENT AGREEMENT

In October 2009, we initiated a claim (the "Brisas Arbitration") under the Additional Facility Rules of the ICSID of the World Bank to obtain compensation for the losses caused by the actions of Venezuela that terminated our Brisas Project in violation of the terms of the Treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments. In September 2014, the ICSID Tribunal unanimously awarded us approximately \$740.3 million (the "Award").

In July 2016, we signed an agreement, whereby Venezuela agreed to pay us the amount of the Award (including interest) and purchase our Mining Data (the "Settlement Agreement"). Under the terms of the Settlement Agreement, as amended, Venezuela agreed to pay the Company \$792 million to satisfy the Award and \$240 million for the purchase of the Mining Data for a total of approximately \$1.032 billion in monthly installments. The first \$240 million received by Gold Reserve from Venezuela has been recognized as proceeds from the sale of the Mining Data. The Mining Data, pursuant to the Settlement Agreement, will be turned over to Venezuela upon receipt of the full amount of the Award.

Pursuant to the Settlement Agreement, the Company agreed to suspend the legal enforcement of the Award until final payment is made by Venezuela and Venezuela irrevocably waived its right to appeal the February 2017 judgment issued by the Cour d'appel de Paris dismissing the annulment applications filed by Venezuela in respect of the Award and agreed to terminate all other proceedings seeking annulment of the Award. Per the terms of the Settlement Agreement, Venezuela agreed to make a payment of \$40 million (the "Initial Payment") followed by 23 monthly payments of \$29.5 million on or before the 15th day (previously the 10th day) of each month starting in July 2017, with a final payment of approximately \$313.3 million scheduled to be paid on or before June 15, 2019.

Cash payments made by Venezuela associated with the Settlement Agreement (excluding the recent transfer of Venezuelan bonds) are generally deposited into a trust account (the "Trust Account") with Bandes Bank (the "Trustee"), a Venezuelan state-owned development bank. Under the trust agreement, the Company can transfer the funds to its bank account outside of Venezuela. For financial statement purposes, deposits held in the Trust Account as of the balance sheet date are recorded as cash and cash equivalents and deposits made to the Trust Account and marketable debt securities transferred to the Company, subsequent to the balance sheet date but prior to the date of issuance of the consolidated financial statements are recorded as receivables from sale of Mining Data or the Award.

As of the date of this report, Venezuela had deposited approximately \$187.5 million to the Trust Account. Of this amount, approximately \$165.2 million had been transferred to the Company's bank account outside of Venezuela with a balance, at the date of this report, of approximately \$22.3 million remaining in the Trust Account. In addition, in August 2018 the Company received Venezuelan government bonds, which are exempt from U.S. Sanctions pursuant to Department of Treasury General License No. 3 issued by the Office of Foreign Asset Control ("OFAC"), with a market value, at the time of the agreement, of approximately \$88.5 million representing payment of the December 2017 and January and February 2018 monthly installments due under the Settlement Agreement. The amount associated with the bonds was originally recorded as a receivable in the June 30, 2018 financial statements. On a cumulative basis, Venezuela has paid the Company approximately \$276 million, including the amounts remaining in the Trust. The monthly payments pursuant to the Settlement Agreement from March through November 2018 totaling approximately \$265.5 million remain unpaid.

Due to U.S. and Canadian Sanctions against Venezuela (as noted below) and the uncertainty of transferring the funds still on deposit in the Trust account outside of Venezuela, the Board of Directors has only considered those amounts (including the bonds) actually received by the Company in its North American bank account as funds available for purposes of calculating the CVR and Bonus Plan distributions, however, the full amount due based on total payments received has been accrued as a payable in the Consolidated Balance Sheets.

In August 2017, the U.S. government imposed financial sanctions (as defined herein "Sanctions") targeting Venezuela by issuing an Executive Order ("EO") that prohibits U.S. persons from dealing in financing of greater than 30 days for Venezuela, including any entity owned or controlled by Venezuela (with respect to the state oil company and its subsidiaries, these restrictions prohibit financings of greater than 90 days). In addition, U.S. persons are prohibited from dealing in, among other things, bonds (unless otherwise exempt from U.S. Sanctions pursuant to General License No. 3 issued by the Department of the Treasury's Office of Foreign Asset Control ("OFAC")) or equity issued by Venezuela after the U.S. financial Sanctions were imposed on August 25, 2017.

These U.S. financial Sanctions have built on Sanctions imposed by the U.S. government starting in March 2015 that designated Venezuelan officials as “Specially Designated Nationals” (“SDNs”), which prohibits them from traveling to the U.S., freezes any assets they may have in the U.S. and generally prohibits U.S. persons from doing business with them and any entity they own 50% or more. Since August 2017, the U.S. government has designated several additional individuals as SDNs and has prohibited U.S. persons from dealing in cryptocurrencies issued by Venezuela. On September 22, 2017 and again on May 30, 2018, Canada imposed its own Sanctions requiring asset freezes and imposing prohibitions on dealings with named Venezuelan officials.

On May 21, 2018, the U.S. government issued an EO that prohibits U.S. persons from engaging in transactions relating to: (i) the purchase of any debt owed to Venezuela, including accounts receivable, (ii) any debt owed to Venezuela that is pledged as collateral after May 21, 2018, including accounts receivable, and (iii) the sale, transfer, assignment, or pledging as collateral by Venezuela of any equity interest in any entity in which Venezuela has a 50 percent or greater ownership interest.

Finally, on November 1, 2018, the U.S. government issued an EO authorizing Sanctions against any person determined to: (i) “operate in the gold sector of the Venezuelan economy” or any other sector deemed sanctionable by the U.S. government, (ii) be responsible for transactions involving deceptive practices or corruption involving Venezuela or (iii) have supported deceptive or corrupt transactions or to be owned or controlled by a person meeting the foregoing criteria. OFAC issued guidance that it “expects to use its discretion to target in particular those who operate corruptly in the gold or other identified sectors of the Venezuela economy, and not those who are operating legitimately in such sectors.”

The US and Canadian Sanctions listed above do not currently prohibit our ability to receive monthly transfers of funds from Venezuela. However, in addition to affecting the political, economic and financial condition of Venezuela, Sanctions have complicated the monthly transfer of funds from Venezuela to our North American bank account. Further, although the issuance of the November 1, 2018 EO does not directly affect our operations in or involving Venezuela, it could complicate our activities involving non-SDN Venezuelan officials or other persons related to the Venezuelan gold sector if they were to be targeted under the Sanctions in the future.

Pursuant to a 2012 restructuring of convertible notes, we issued Contingent Value Rights (“CVRs”) that entitle the holders to an aggregate of 5.466% of proceeds associated with the collection of the Award, sale of Mining Data or an enterprise sale (the “Proceeds”), less amounts sufficient to pay or reserve for taxes payable, certain associated professional fees and expenses not to exceed \$10 million, any accrued operating expenses as of the date of the receipt of proceeds not to exceed \$1 million and the balance of any remaining Notes and accrued interest thereon (the “Net Proceeds”). We have been advised by a CVR holder that it believes that the Company’s 45% interest in Siembra Minera represents “Proceeds” for purposes of the CVRs and as such it believes it is entitled to the value of 5.466% of that interest. For a variety of reasons, the Board of Directors does not agree with that position and believes it is inconsistent with the CVRs and the terms and manner upon which we reached settlement as to the Award with the Venezuelan government. We continue discussions with the CVR holder on this subject and it is not possible at this time to know the outcome of this matter. As of September 30, 2018, the total estimated amount due pursuant to the terms of the CVRs (including those amounts remaining in the Trust Account and the receivable associated with the Venezuelan bonds) from the sale of the Mining Data and the Award was approximately \$5.6 million. The amount distributed during the nine months ended September 30, 2018 based on the amounts transferred to our North American bank account was approximately \$1.9 million.

The Board of Directors approved a bonus plan (the "Bonus Plan") in May 2012, which was intended to compensate the participants, including executive officers, employees, directors and consultants for their contributions related to: the development of the Brisas Project; the manner in which the development effort was carried out allowing the Company to present a strong defense of its arbitration claim; the support of the Company's execution of the Brisas Arbitration; and the ongoing efforts to assist with positioning the Company in the collection of an award, sale of the Mining Data or enterprise sale. The bonus pool under the Bonus Plan, as originally structured, was comprised of the gross proceeds collected or the fair value of any consideration realized related to such transactions less applicable taxes multiplied by 1% of the first \$200 million and 5% thereafter. In June 2018, the Board modified the Bonus Plan to increase the percentage participation of certain individuals who in the Board's opinion were not adequately recognized for their current contribution to efforts associated with the conclusion of the Settlement Agreement and the collection of the amounts contemplated thereunder. The effect of the Board's modification to the Bonus Plan was to increase the after tax percentage allocation for the first \$200 million up to a maximum of 1.28% and the percentage allocation thereafter up to a maximum of 6.4%. The Bonus Plan is administered by a committee of independent directors who selected the individual participants in the Bonus Plan and fixed the relative percentage of the total pool to be distributed to each participant. Participation in the Bonus Plan by existing participants is fully vested, subject to voluntary termination of employment or termination for cause. Participants who reach age 65 and retire are fully vested and continue to participate in future distributions under the Plan. As of September 30, 2018, the total estimated amount due pursuant to the terms of the Bonus Plan (including those amounts remaining in the Trust Account and the receivable associated with the Venezuelan bonds) from the sale of the Mining Data and the Award is approximately \$2.2 million. The amount distributed during the nine months ended September 30, 2018 based on the amounts transferred to our North American bank account was approximately \$0.7 million.

The Company maintains the Gold Reserve Director and Employee Retention Plan. Each unit (a "Retention Unit") granted to a participant entitles such person to receive a cash payment equal to the fair market value of one Gold Reserve Class A common share on the date the Retention Unit is granted or on the date any such participant becomes entitled to payment, whichever is greater. Units previously granted under the plan became fully vested upon the collection of proceeds from sale of the Mining Data and the Board of Director's agreement to distribute a substantial majority of the remaining proceeds to our shareholders. In June 2017, as a result of the collection of proceeds related to the sale of the Mining Data, the Retention Units vested and in the third quarter of 2017 the Company paid \$7.7 million to plan participants. As of September 30, 2018 there were no Retention Units outstanding.

Following receipt of funds transferred pursuant to the Settlement Agreement to our North American bank account and after applicable payments to CVR holders and Bonus Plan participants, we expect to distribute to our shareholders a substantial majority of any remaining proceeds, subject to applicable regulatory requirements and retaining sufficient reserves for operating expenses, contractual obligations, accounts payable and income taxes, and any obligations arising as a result of the collection of the Award and/or sale of the Mining Data.

Financial Overview

Our overall financial position continues to be influenced by the Settlement Agreement and the proceeds received thereunder, the settlement in the third quarter of 2017 of all of our outstanding notes and the ongoing payment of amounts due pursuant to the CVRs, Retention and Bonus Plans. Recent operating results are impacted by expenses associated with the initial activities related to Siembra Minera, costs associated with the Settlement Agreement and costs associated with maintaining our legal and regulatory obligations in good standing.

Historically we have financed our operations through the issuance of common stock, other equity securities and debt. The timing of any future investments or transactions if any, and the amounts that may be required cannot be determined at this time and are subject to available cash, the continued collection, if any, of the proceeds associated with the collection of the Award and/or future financings, if any. We have only one operating segment, the exploration and development of mineral properties.

Our longer-term funding requirements may be adversely impacted by the amount of and timing of the collections of the amounts due pursuant to the Settlement Agreement, timing and amount of distribution made to shareholder, if any, and future financial market and industry conditions, regulatory approvals or other unknown or unpredictable conditions and, as a result, there can be no assurance that additional funding will be available or, if available, offered on acceptable terms.

Liquidity and Capital Resources

At September 30, 2018, we had cash and cash equivalents of approximately \$112.1 million (including cash of \$37.1 million held in trust) (See Note 4 to the consolidated financial statements), which represents a decrease from December 31, 2017 of approximately \$25.6 million. The net decrease was primarily due to income taxes paid and cash used in operations as more fully described in the "Operating Activities" section below.

		<u>2018</u>	<u>Change</u>	<u>2017</u>
Cash and cash equivalents	\$	112,073,825	\$ (25,598,893)	\$ 137,672,718

Subsequent to the balance sheet date the Trustee transferred additional funds out of the Trust Account increasing the total amount transferred to our North American bank account to approximately \$165.2 million. As of the date of this report, the balance of approximately \$22.3 million remains in the Trust Account.

As of September 30, 2018, we had financial resources including cash and cash equivalents of \$112.1 million, marketable debt securities of \$85.1 million (See Note 5 to the consolidated financial statements), marketable equity securities of approximately \$0.2 million, Brisas Project related equipment with an estimated net realizable value of approximately \$11.7 million (See Note 6 to the consolidated financial statements), and short-term financial obligations including income tax, contingent value rights, accounts payable and accrued expenses of approximately \$15.9 million.

We have no revenue producing operations at this time and our working capital position is dependent upon receipt of payments under the Settlement Agreement and our cash burn rate and we may be required to seek additional sources of funding to ensure our ability to continue our activities in the normal course.

Operating Activities

Cash flow used in operating activities for the nine months ended September 30, 2018 and 2017 was approximately \$25.5 million and \$40.7 million, respectively. Cash flow used in operating activities consists of net income (the components of which are more fully discussed below) adjusted for gains on investing activities and non-cash expense items primarily related to stock option compensation and certain non-cash changes in working capital. Cash flow used in operating activities during the nine months ended September 30, 2018 decreased from the prior comparable period primarily due to decreases in cash paid for arbitration and settlement and decreases in expenses associated with receipt of payments under the Settlement Agreement.

Investing Activities

Cash flow from investing activities during the nine months ended September 30, 2018 decreased from the prior comparable period as the Company did not record any additional receipts of cash from the sale of its Mining Data. As of September 30, 2018, the Company held approximately \$11.7 million of Brisas Project related equipment intended for future sale or use (See Note 6 to the consolidated financial statements).

Financing Activities

During the nine months ended September 30, 2017, certain directors, officers, employees and consultants exercised approximately 2.0 million outstanding options for net proceeds to the Company of approximately \$5.9 million. The Company did not have cash flows from financing activities during the nine months ended September 30, 2018.

In the third quarter of 2017, the Company settled all of its 2018 Notes. Prior to settlement, the Company had a total of \$59.1 million face value of 2018 Notes outstanding. Of these notes, \$36.3 million were redeemed for cash and the Company paid an additional \$6.4 million related to a 20% premium due on the redeemed notes and \$0.2 million in interest to the redemption date. The remaining \$22.8 million 2018 Notes were converted to approximately 7.6 million Class A common shares. As a result of the redemption or conversion of 2018 Notes, the Company recorded a \$16.6 million loss on settlement of debt consisting of the \$6.4 million premium paid and approximately \$10.2 million of remaining unamortized discount.

Contractual Obligations

Our material contractual obligation payments as of September 30, 2018 consist of amounts due pursuant to the CVR's and the bonus plan of \$5.6 million and \$2.2 million, respectively.

Results of Operations

Summary Results of Operations

Consolidated net income for the three and nine months ended September 30, 2018 was approximately \$3.7 million and \$67.8 million, respectively compared to \$34.3 million and \$81.8 million in the comparable periods in 2017. Income tax expense for the nine months ended September 30, 2018 decreased from the prior comparable period as a result of the deduction of capitalized costs incurred in the development of the Mining Data and a change in the valuation allowance due to the utilization of Canadian tax loss carryforwards. The tax benefit of the capitalized costs had not been recognized prior to the third quarter of 2018 when Venezuela completed all of the payments due under the agreement for sale of the Mining Data.

Income

	Three Months			Nine Months		
	2018	2017	Change	2018	2017	Change
Gain on sale of mining data	\$ –	\$88,500,000	\$(88,500,000)	\$52,500,000	\$187,500,000	\$(135,000,000)
Arbitration income	–	–	–	36,000,000	–	36,000,000
Interest income	84,998	11,751	73,247	173,830	41,549	132,281
Loss on marketable debt securities	(3,347,410)	–	(3,347,410)	(3,347,410)	–	(3,347,410)
Loss on marketable equity securities	(5,442)	–	(5,442)	(17,046)	–	(17,046)
Loss on settlement of debt	–	(6,144,815)	6,144,815	–	(16,637,379)	16,637,379
Foreign currency gain (loss)	244,265	(77,898)	322,163	(180,292)	(85,718)	(94,574)
	\$(3,023,589)	\$82,289,038	\$(85,312,627)	\$85,129,082	\$170,818,452	\$(85,689,370)

As the Company has no commercial production at this time, income is often variable from period to period due to the timing and magnitude of the payments from Venezuela. The decrease in income was primarily due to decreased gain on the sale of the Mining Data and increases in loss on marketable debt securities partially offset by the arbitration award and a decrease in loss on settlement of debt.

Expenses

Overall, total expense for the three and nine months ended September 30, 2018 decreased by approximately \$11.6 million and \$25.1 million, respectively, from the comparable periods in 2017. Corporate general and administrative expense for the nine months ended September 30, 2018 decreased from the comparable period in 2017 primarily due to decreases in expense related to non-cash charges associated with the issuance of stock options and compensation expense. Retention Units became due and payable in full in 2017 as a result of the collection of proceeds pursuant to the Settlement Agreement. Changes in costs associated with Contingent Value Rights from the comparable periods in 2017 are a result of the timing of the receipt of payments pursuant to the Settlement Agreement. Expenses associated with the Siembra Minera Project increased during the three months ended September 30, 2018 as the Company continued its activities related to the development of the project. Legal and accounting expenses for the nine months ended September 30, 2018 increased as a result of professional fees related to legal guidance associated with Sanctions as well as advice regarding income tax planning. The decrease in arbitration and settlement costs is related to the contingent legal fees that became due and payable in the second quarter of 2017 upon receiving payment under the Settlement Agreement and a decrease in arbitration and settlement related activities. The increase in equipment holding costs was due to the relocation of certain equipment in 2018. The decrease in interest expense was due to the redemption and conversion of convertible notes in the third quarter of 2017.

Fully diluted	0.04	0.67	(0.03)	0.08	0.36	0.55	(0.10)	(0.08)

(1) The information shown above is derived from our consolidated financial statements that have been prepared in accordance with U.S. generally accepted accounting principles.

(2) Net income (loss) from continuing and total operations attributable to owners of the parent.

In the third quarter of 2018, income decreased as the Company did not record additional receipts from the award and the Company recorded a loss on marketable debt securities. In the second quarter of 2018, income increased as a result of gain on sale of Mining Data and the collection of the arbitration award. In the first quarter of 2018, income increased as a result of a decrease in foreign currency loss. In the fourth quarter of 2017, income decreased as the Company did not have any receipts from the sale of its Mining Data. In the third quarter of 2017, the Company recorded \$88.5 million of income related to the sale of its Mining Data and a \$6.1 million loss on settlement of debt. In the second quarter of 2017, the Company recorded \$99.0 million of income related to the sale of its Mining Data and a \$10.5 million loss on settlement of debt. In the first quarter of 2017, other income (loss) consisted of interest income and foreign currency loss. In the fourth quarter of 2016, other income (loss) primarily consisted of a loss on write-down of property, plant and equipment partially offset by foreign currency gain.

In the third quarter of 2018, the Company recorded net income primarily as a result of the recognition of certain tax benefits related to the costs incurred in the development of the Mining Data. In the second quarter of 2018, net income increased as a result of gain on sale of Mining Data and the collection of the arbitration award. In the first quarter of 2018, the Company recorded net losses primarily because the Company did not have any receipts from the sale of its Mining Data or from the arbitration award. In the fourth quarter of 2017, the Company recorded net income primarily as a result of an adjustment to income tax expense. In the second and third quarters of 2017, the Company recorded net income as a result of the deposit of funds by Venezuela into the Trust Account associated with the sale of its Mining Data partially offset by the loss on settlement of debt. In the first quarter of 2017, net loss increased primarily as a result of non-cash stock option compensation expense of \$4.4 million partially offset by a \$1.2 million decrease in arbitration and settlement costs. In the fourth quarter of 2016, net loss increased as a result of a loss on write-down of property, plant and equipment as well as an increase in costs associated with employee compensation and director fees.

Off-Balance Sheet Arrangements

The Company is not a party to any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on the Company's financial condition, changes in financial condition, revenues, expense, results of operations, liquidity, capital expenditures or capital resources.

Exhibit 99.3 Chief Executive Officer's Certification of Interim Filings

**Form 52-109F2
Certification of interim filings – full certificate**

I, Rockne J. Timm, Chief Executive Officer of Gold Reserve Inc., certify the following:

1. I have reviewed the interim financial report and interim MD&A (together, the “interim filings”) of Gold Reserve Inc. (the “issuer”) for the interim period ended September 30, 2018.
2. Based on my knowledge, having exercised reasonable diligence, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings.
3. Based on my knowledge, having exercised reasonable diligence, the interim financial report together with the other financial information included in the interim filings fairly present in all material respects the financial condition, financial performance and cash flows of the issuer, as of the date of and for the periods presented in the interim filings.
4. The issuer's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as those terms are defined in National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*, for the issuer.
5. Subject to the limitations, if any, described in paragraphs 5.2 and 5.3, the issuer's other certifying officer and I have, as at the end of the period covered by the interim filings
 - (a) designed DC&P, or caused it to be designed under our supervision, to provide reasonable assurance that
 - (i) material information relating to the issuer is made known to us by others, particularly during the period in which the interim filings are being prepared; and
 - (ii) information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
 - (b) designed ICFR, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP.
- 5.1 The control framework the issuer's other certifying officer and I used to design the issuer's ICFR is the Committee of Sponsoring Organizations of the Treadway Commission (COSO) 2013 framework.
- 5.2 N/A
- 5.3 N/A
6. The issuer has disclosed in its interim MD&A any change in the issuer's ICFR that occurred during the period beginning on January 1, 2018 and ended on September 30, 2018 that has materially affected, or is reasonably likely to materially affect, the issuer's ICFR.

Exhibit 99.4 Chief Financial Officer's Certification of Interim Filings

**Form 52-109F2
Certification of interim filings – full certificate**

I, Robert A. McGuinness, Chief Financial Officer of Gold Reserve Inc., certify the following:

1. I have reviewed the interim financial report and interim MD&A (together, the “interim filings”) of Gold Reserve Inc. (the “issuer”) for the interim period ended September 30, 2018.
2. Based on my knowledge, having exercised reasonable diligence, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings.
3. Based on my knowledge, having exercised reasonable diligence, the interim financial report together with the other financial information included in the interim filings fairly present in all material respects the financial condition, financial performance and cash flows of the issuer, as of the date of and for the periods presented in the interim filings.
4. The issuer's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as those terms are defined in National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*, for the issuer.
5. Subject to the limitations, if any, described in paragraphs 5.2 and 5.3, the issuer's other certifying officer and I have, as at the end of the period covered by the interim filings
 - (a) designed DC&P, or caused it to be designed under our supervision, to provide reasonable assurance that
 - (i) material information relating to the issuer is made known to us by others, particularly during the period in which the interim filings are being prepared; and
 - (ii) information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
 - (b) designed ICFR, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP.
- 5.1 The control framework the issuer's other certifying officer and I used to design the issuer's ICFR is the Committee of Sponsoring Organizations of the Treadway Commission (COSO) 2013 framework.
- 5.2 N/A
- 5.3 N/A
6. The issuer has disclosed in its interim MD&A any change in the issuer's ICFR that occurred during the period beginning on January 1, 2018 and ended on September 30, 2018 that has materially affected, or is reasonably likely to materially affect, the issuer's ICFR.
