CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS AND INFORMATION

The information presented or incorporated by reference herein contains both historical information and "forward-looking statements" within the meaning of the relevant sections of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and "forward-looking information" within the meaning of applicable Canadian securities laws, that state Gold Reserve Inc.'s (the "Company") intentions, hopes, beliefs, expectations or predictions for the future. Forward-looking statements and forward-looking information are collectively referred to herein as "forward-looking statements".

Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies that may cause the Company's actual financial results, performance, or achievements to be materially different from those expressed or implied herein and many of which are outside its control. Some of the material factors or assumptions used to develop forward-looking statements include, without limitation, the uncertainties associated with: the timing of the enforcement and collection of the amounts awarded (including pre and post award interest and legal costs) (the "Arbitral Award") by the International Centre for Settlement of Investment Disputes (the "ICSID") for the losses caused by Venezuela violating the terms of the treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT") related to the Brisas Project (the "Brisas Arbitration"), actions and/or responses by the Venezuelan government to the Company's collection efforts related to the Brisas Arbitration, economic and industry conditions influencing the sale of the Brisas Project related equipment, and conditions or events impacting the Company's ability to fund its operations and/or service its debt.

Forward-looking statements involve risks and uncertainties, as well as assumptions, including those set out herein, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements. The words "believe," "anticipate," "expect," "intend," "estimate," "plan," "may," "could" and other similar expressions that are predictions of or indicate future events and future trends which do not relate to historical matters, identify forward-looking statements. Any such forward-looking statements are not intended to provide any assurances as to future results.

Numerous factors could cause actual results to differ materially from those described in the forward-looking statements, including without limitation:

- the timing of the enforcement and collection of the Arbitral Award (as defined herein), if at all;
- the costs associated with the enforcement and collection of the Arbitral Award and the complexity and uncertainty of varied legal processes in various international jurisdictions;
- the Company's current liquidity and capital resources and access to additional funding in the future when required;
- continued servicing or restructuring of the Company's outstanding notes or other obligations as they come due;
- shareholder dilution resulting from restructuring or refinancing the Company's outstanding notes and current accounts payable relating to the Company's legal fees;
- shareholder dilution resulting from the conversion of our outstanding notes in part or in whole to equity;
- shareholder dilution resulting from the sale of additional equity;
- value realized from the disposition of the remaining Brisas Project related assets, if any;
- value realized from the disposition of the Brisas Project Technical Mining Data (as defined herein), if any;
- prospects for exploration and development of other mining projects by the Company;
- ability to maintain continued listing on the TSX Venture Exchange or continued trading on the OTCQB;
- corruption, uncertain legal enforcement and political and social instability;
- currency, metal prices and metal production volatility;

- adverse U.S. and/or Canadian tax consequences;
- abilities and continued participation of certain key employees; and
- risks normally incident to the exploration, development and operation of mining properties.

This list is not exhaustive of the factors that may affect any of the company's forward-looking statements. See "Risk Factors" contained in the Company's Annual Information Form and Annual Report on Form 40-F filed on sedar.com and sec.gov, respectively for additional risk factors that could cause results to differ materially from forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in the Company's affairs since the date of this report that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with or furnished to the U.S. Securities and Exchange Commission (the "SEC") or other securities regulators or documents presented on the Company's website. Forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by this notice. The Company disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to the Company's disclosure obligations under applicable U.S. and Canadian securities regulations. GOLD RESERVE REPORTS ON LATEST DEVELOPMENTS IN LUXEMBOURG

SPOKANE, WASHINGTON, June 30, 2015

Gold Reserve Inc. (TSX.V:GRZ) (OTCQB:GDRZF) (the “Company”) reports on recent developments occurring in Luxembourg in relation to its collection efforts of the US \$740 million arbitral award dated September 22, 2014 (the “Award” which includes the award, pre-award interest and costs) rendered against the Bolivarian Republic of Venezuela (“Venezuela”).

On June 25, 2015, the Luxembourg Court of Appeal stayed Venezuela's appeal of the October 28, 2014 order of the Chairman of the *Tribunal d'arrondissement de et à Luxembourg* granting the *exequatur* (recognition and execution) of the Award in Luxembourg, on the basis that the Paris Court of Appeal is scheduled to hear Venezuela's application to annul within a few months. The *exequatur* remains in full effect which means that the conservatory seizures obtained by Gold Reserve remain in force and the Company is free to proceed with additional seizures if and when it deems it appropriate.

Luxembourg Proceedings

On October 28, 2014, the Company filed for and was granted the *exequatur* (recognition and execution) of the Award by the Chairman of the *Tribunal d'arrondissement de et à Luxembourg*. As a result, in Luxembourg the Award was declared enforceable in the same manner as if it were a judgment handed down by a court of the Grand Duchy of Luxembourg and allowed the Company to proceed with conservatory actions against Venezuela's assets in the Grand Duchy of Luxembourg.

On January 12, 2015, Venezuela filed a notice of appeal of this decision in the *Cour d'appel de Luxembourg* (the “Luxembourg Court of Appeal”), reiterating, for the most part the arguments made before, and dismissed by, the Paris Court of Appeal, to oppose the Company's petition for *exequatur*. In addition, Venezuela asked for a stay pending the determination of its application to annul the Award before the Paris Court of Appeal.

With the latest writ of seizure on May 7, 2015, the Company has served writs totaling nearly US \$1 billion related to interest payments on Venezuelan sovereign bonds and any other funds owned by Venezuela. So far, the banks have denied holding funds for the account of Venezuela, which appears to contradict the information contained in listing memoranda. As a result, the Company intends to have the issue determined by the appropriate court having jurisdiction in Luxembourg over such matters.

The Company remains firmly committed to the enforcement and collection of the Award, including interest and costs, in full, and will continue to vigorously pursue all available remedies. The Award including post-Award interest, now amounting to approximately US \$755 million, continues to accrue interest at the rate of Libor plus 2% per annum.

Gold Reserve's President Doug Belanger stated, "Our ability to cause writs of seizure over Venezuela's assets in Luxembourg remains intact while we are on course to have Venezuela's application to annul the award heard by the Paris Court of Appeal, on November 3, 2015 as scheduled. While we continue to have discussions with senior officials of the Venezuelan Government, we intend to pursue our collection efforts in Luxembourg including challenging the declarations of the banks that have been served, so far, with the writs of seizure."

Grant of Stock Options

The Company also announced the annual granting of stock options to each of the five independent directors totaling 215,000 stock options. The options are exercisable at US \$3.91, have a grant date of June 29, 2015 with a 10-year term, and have been issued under the Company's existing 2012 Equity Incentive Plan.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This release contains "forward-looking statements" or "forward-looking information" as such terms are defined under applicable U.S. and Canadian securities laws (collectively referred to herein as "forward-looking statements") with respect to the ICSID Arbitral Award related to the wrongful actions of Venezuela that terminated the Brisas Project in violation of the terms of the Treaty between the Government of Canada and the Government of Venezuela for the Promotion and Protection of Investments (the "Canada-Venezuela BIT"). (Gold Reserve Inc. v. Bolivarian Republic of Venezuela (ICSID Case No. ARB(AF)/09/1). Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies such as, among other things, the Company's ability to collect such Arbitral Award.

We caution that such forward-looking statements involve known and unknown risks, uncertainties and other risks that may cause the actual outcomes, financial results, performance, or achievements of Gold Reserve to be materially different from our estimated outcomes, future results, performance, or achievements expressed or implied by those forward-looking statements. Factors that could cause actual results to differ materially from those in the forward-looking statements include the timing of and amount of collection of the Award, if at all.

This list is not exhaustive of the factors that may affect any of Gold Reserve's forward-looking statements. Investors are cautioned not to put undue reliance on forward-looking statements. All subsequent written and oral forward-looking statements attributable to Gold Reserve or persons acting on its behalf are expressly qualified in their entirety by this notice. Gold Reserve disclaims any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to its disclosure obligations under applicable U.S. or Canadian securities laws.
