CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS AND INFORMATION

The information presented or incorporated by reference in this report contains both historical information and "forward-looking statements" (within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) or "forward looking information" (within the meaning of applicable Canadian securities laws) (collectively referred to herein as "forward looking statements") that may state our intentions, hopes, beliefs, expectations or predictions for the future.

Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by us at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies that may cause our actual financial results, performance or achievements to be materially different from those expressed or implied herein and many of which are outside our control.

Forward-looking statements involve risks and uncertainties, as well as assumptions, including those set out herein, that may never materialize, prove incorrect or materialize other than as currently contemplated which could cause our results to differ materially from those expressed or implied by such forward-looking statements. The words "believe," "anticipate," "expect," "intend," "estimate," "plan," "may," "could" and other similar expressions that are predictions of or indicate future events and future trends, which do not relate to historical matters, identify forward-looking statements. Any such forward-looking statements are not intended to provide any assurances as to future results.

Numerous factors could cause actual results to differ materially from those described in the forward-looking statements, including, without limitation:

- delay or failure by the Bolivarian Republic of Venezuela ("Venezuela") to make payments or otherwise honor its commitments under the settlement agreement, as amended, (the "Settlement Agreement"), including with respect to the sale of our technical mining data related to the Brisas Project (the "Mining Data") for use by the mixed company (the "Mixed Company");
 - the ability of the Company and Venezuela to (i) successfully overcome any legal or regulatory obstacles to own and operate the Mixed Company for the purposes of developing the Brisas Cristinas Project, (ii) the completion of any additional definitive documentation and finalization of any remaining governmental approvals and (iii) obtain financing to fund the capital costs of the Brisas Cristinas Project;
 - risks associated with exploration, delineation of adequate reserves, regulatory and permitting obstacles and other risks associated with the development of the Brisas Cristinas Project;
 - local risks associated with the concentration of our future operations and assets in Venezuela, including operational, regulatory, political and economic risks;
 - our ability to resume our efforts to enforce and collect the arbitral award, including the associated costs of such enforcement and collection effort and the timing and success of that effort, if Venezuela fails to make payments under the Settlement Agreement and it is terminated;
 - pending the receipt of payments under the Settlement Agreement, our continued ability to service or restructure our outstanding notes or other obligations as they come due and access future additional funding, when required, for ongoing liquidity and capital resources;
 - shareholder dilution resulting from restructuring, refinancing and/or conversion of our outstanding notes or from the sale of additional equity, if required;
 - value realized from the disposition of the remaining Brisas Project related assets, if any;
-

- our prospects in general for the identification, exploration and development of mining projects and other risks normally incident to the exploration, development and operation of mining properties, including our ability to achieve revenue producing operations in the future;
- abilities and continued participation by certain key employees; and
- U.S. and/or Canadian tax consequences to which we are subject.

See “Risk Factors” contained in our Annual Information Form and Annual Report on Form 40-F filed on www.sedar.com and www.sec.gov, respectively for additional risk factors that could cause results to differ materially from forward-looking statements.

Investors are cautioned not to put undue reliance on forward-looking statements, and investors should not infer that there has been no change in our affairs since the date of this report that would warrant any modification of any forward-looking statement made in this document, other documents periodically filed with the SEC or other securities regulators or presented on the Company’s website. Forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this notice. We disclaim any intent or obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information, future events or otherwise, subject to our disclosure obligations under applicable U.S. and Canadian securities regulations. Investors are urged to read the Company’s filings with U.S. and Canadian securities regulatory agencies, which can be viewed online at www.sec.gov and www.sedar.com, respectively.

Venezuela to Pay Gold Reserve by December 15, 2016 and Mining Update**SPOKANE, WASHINGTON, December 2, 2016**

Gold Reserve Inc. (TSX.V: GRZ) (OTCQB: GDRZF) (“Gold Reserve” or the “Company”) today reported that it has agreed to further modify the settlement agreement (the “Settlement Agreement”) previously entered into with the Bolivarian Republic of Venezuela (“Venezuela”) (see Press Release dated November 4, 2016). The first payment of US\$ 300,000,000, originally scheduled for November 30, 2016, is now rescheduled to take place on or before December 15, 2016.

The balance for future payments remains the same as previously described, namely that the second payment of US\$ 469,681,823 be made on or before January 3, 2017, a third payment of US\$ 50,000,000 on or before January 31, 2017, a fourth payment of US\$ 100,000,000 on or before February 28, 2017, and a final payment of US\$ 90,000,000 on or before June 30, 2017. The aggregate payments to be made by Venezuela have not changed.

Gold Reserve executives, who are in Caracas, have been assured by Roberto Mirabal, Minister of the People’s Power for Ecological Mining Development, that the funds are in place and that Venezuela is just completing certain administrative actions to have the funds transferred to Gold Reserve.

Minister Mirabal stated, “We have worked closely with Gold Reserve executives and we have now finalized the arrangements for the initial payment to Gold Reserve, which shall take place by December 15, 2016. In addition, we have had several board of directors meetings of the Mixed Company and the project at long last is moving forward, which is a historic milestone for Venezuela, for the Mining Arch and the people in the Las Claritas community. In order to promote early gold production, the intention is to initiate small-scale mining at several sites while construction of the main large-scale mineral processing plant is proceeding, in order to maximize local employment opportunities.”

James H. Coleman, Chairman of Gold Reserve, stated, “Our meetings here in Caracas have gone well, the funding is now in place and Gold Reserve, based on Minister Mirabal’s assurances, will be in receipt of the initial payment by December 15, 2016. This is an important event not only for Gold Reserve, but for Venezuela as it confirms to the mining and investment communities that you can do business in Venezuela and that it is indeed open for international business.”

The Mixed Company, of which Gold Reserve owns 45% and Venezuela owns 55%, and which holds the Brisas/Cristinas gold deposit, will initiate the development plan of the mining activities needed to commence construction as soon as possible.
